Once you have successfully deposited under the terms of the 888Casino welcome bonus, you’ll receive bonus funds. However, you are not permitted to withdraw them immediately – you must satisfy bonus amount playthrough requirement.

888 Online Casino enforces 30x wagering requirement – if you received a \$100 bonus from a \$200 deposit, you need to place \$3,000 worth of bets to withdraw any bonus money. This may sound unfair, but realize that (a) this wagering requirement protects 888 Casino vultures who only join online casinos to withdraw bonus funds from casino bonuses.

Furthermore, many online casino games have a high return-to-player percentage (the amount of cash you’re expected to retain over a set time period versus the house), or RTP. By playing games that have a high RTP, you can minimize losses incurred while unlocking bonus cash, therefore winning and keeping most of the cash.

Currently, you don’t need a bonus code for free spins, first deposit bonus, or no deposit free money. If a bonus code becomes available, you can always find it at BonusFinder US.

888Casino is sometimes criticized for having a modest selection of video slots, despite offering multiple game providers. Despite this, there are more than 230 games on their casino platform – many titles are exclusive to 888, making it an excellent casino for players who have seen it all.

888 offers popular third-party titles like Family Guy in its slot library. You can use your welcome bonus free spins on these slots.

888 Casino does carry its share of third party games – of them, the NetEnt title Starburst stands out. With the ability to win both ways (combos count going left and right) and expanding wilds (a wildcard that stretches to cover an entire reel). Starburst is the perfect slot to use your free play bonus free spins money. There are also some IGT slots.

Want to play for a life-changing payout? Players no longer have to rely on Powerball lottery draws, as 888 offers 13 progressive jackpot slot games. These real money video slots take a small percentage of each wager and put it towards a continually rising jackpot. Hit it, and you could win a prize ranging from the tens of thousands to well above a million dollars.

Of the progressive slot titles that 888 carries, Irish Riches is one of the best. While you are waiting for the chance to take your crack at the jackpot, its jig-inducing music, 15 pay lines and fun bonus game will keep you occupied. The latter feature has you pick two chests – one contains a dollar amount, and the other a multiplier. If the luck of the Irish is with you, this can lead to a very handsome payday!

888Casino does not make it easy to find the perfect slot. They do offer a menu where you can filter by jackpots, exclusive games, NetEnt games, or number of lines, but there is no search function for going through the 200+ slots. We suggest simply pressing CTRL + F to find your favorite game.

Enjoy games that incorporate elements of strategy? 888Casino has blackjack, roulette, and video poker on its platform. Additionally, baccarat and table game poker is offered in 888's live casino (more on that later).

To be honest, 888 Casino left us wanting a little more in this department. At present, there are only three variants of blackjack, five different roulette games, and four types of video poker. However, as the gaming industry evolves in the US and as more states legalize gaming, we're confident the number gaming selections will improve.

888 Casino offers three different variants of blackjack – Classic blackjack, European blackjack, and American blackjack. American blackjack varies from the first two games in the following ways: doubling down is allowed on all hands, hands can be split three times, and a natural dealer blackjack ends the hand immediately.

Casino genie millionaire 888

While both types of blackjack have their merits, we prefer the American game – it saves you from losing money on natural dealer blackjacks, and the splitting/doubling down rules allow for big wins.

888 Casino Online has five RNG roulette tables – three offer the American roulette version, along with European roulette and French roulette games. The primary difference between American and European/French variants is that the American wheel has an extra slot: '00'. This gives the house better odds, making European or French Roulette a better choice.

While European roulette offers a wheel with just one '0' slot, French roulette is the best of the lot. It has a wheel that is identical to the European game, but it comes with two extra rules: 'En Prison' and 'La Partage'.

Casino millionaire genie 888

If you bet on an even money spot (red/black, even/odd, or high/low) and the ball lands in '0', you don't lose it immediately. Instead, it is considered to be 'en prison' – chips are left in place and the wheel is spun again. If you win on the second spin, you get your money back. If you don't, you lose.

Want to cut your losses instead? If you are in the same situation as described above, you can invoke the 'La Partage' rule before the wheel is spun. This allows you to salvage 50% of your original bet by surrendering the other half to the house – think of it as posting bail.

Unfortunately, 888 Casino does not currently offer any RNG-run baccarat games. However, its live casino does – check out the next section for all the details on that.

The video poker selection at 888 has 4 video poker titles including double double bonus poker, and Jacks or Better.

888 Holdings is known among online casinos for offering scratch cards. This is also true for the US. In NJ, they offer 46 different scratch cards.

How is it possible to enjoy live dealer casino games from the comfort of your home? It's simple – 888 Casino employs dealers and croupiers who deal cards and drop balls before a high definition camera. This footage is streamed in real time to players like you, who place bets on the games that are being broadcast.

You can even chat 888's live casino employees as they do their job via a chat box, turning a dull evening at home into an exciting one. If the impersonal nature of RNG-driven games bothers you, be sure to check out the live dealer games 888 Casino has to offer.
