Lines are generally released earlier on offshore sportsbooks, which bring in early bets. You can also bet on NFL teams from the state of Texas, like the Dallas Cowboys and Houston Texans, which creates additional interest in their performance.

It is legal to bet on the NFL in Texas. However, there is a downside if you're using sportsbooks that are registered and licensed in the USA, which have certain regulatory restrictions on the markets they can offer, and the odds generally aren't early in comparison to what you get with offshore bookmakers. This and all the rules can be hard to keep track of sometimes. Offshore sportsbooks are the best options in this case, as they do not come with such restrictions and offer betting on all markets at good odds.

As gambling becomes more embraced online, a greater number of about 49.5% of gamblers in the international market spring from the European continent. This indeed shows the level of interest from EU residents in casinos and other betting services. No EU gambling law regulates all betting and gambling activities, and it doesn't look like there will be any in the future. Instead, there is autonomy based on the country and type of games, so, different countries play by different laws.

The European Commission plays strictly with one regulation which is the KYC requirement for digital gaming. Also, the Anti-Money Laundering law requires gambling providers to have a risk-based evaluation of all EU players to curb money laundering opportunities and other financial crimes. In all, there aren't any strict standard laws that restrict customers who have an interest in online gambling.
