There's nothing particularly out of the ordinary about this social casino but, with branded Aristocrat Gaming titles and plenty of bonuses dished out by Mr Cashman, it's one you can happily spend time on.

With all of that said, there's nothing particularly outstanding that sets Cashman Casino apart from its competitors. The range of games is still limited and the social aspects of it need some work. Still, if you're on the market for an easy-to-use social casino with great mobile apps, it's a fine choice.

I have been playing this casino for a few years. Recently they came up with "Cashman studios" I could never get into the studio to open the cases.

It would start to download and then stop. When I complained I was told to make sure I had the latest version, to remove the app and then download again, I sent a screen shot, and did all of the other "suggestions". Nothing worked. They said they would look into it further and that the problem should be resolved shortly. The game ended with me having over 200 cases that I could never open. Now there is holiday Cashman

studios. I am experiencing the exact same issues. I sent a complaint as was told to do all of the things I was told the first time. Same result. They will look into further and the problem should be resolved shortly. I now have over 100 cases that I cannot open. What a joke. It's very frustrating when you get a generic response that is sent to everyone with a downloading issue. I did ask if others were having the problems, and I never got an answer to that question. So if your tech guys are actually reading this, maybe they can help me to resolve this ongoing issue. Who knows how much money I would be getting if I could actually play and open these studio cases. And of course you don't give any compensation for the problem/glitch in your game. Thanks A very unhappy customer. P.S. no need to send me yet another generic response saying how sorry you are that I am having no luck participating in the game

For the best chance to win -- and to limit losses -- players need to understand the games before they start to play. A blackjack player who does not know the rules of the game, the totals on which the dealer is required to hit or stand, or a basic strategy for play might as well just write the casino a check. Likewise, a craps player who does not understand the available options might make bets giving the house a 16.67 percent edge, when bets are available at the same table that limit the house advantage to .6 percent.

Hello, if you want to play at a good casino that also pays, enter this name "YDK765" into a Google search.. So far so good ☐ love this game because I'm winning just a tad bit more keep the winnings coming & maybe I'll purchase some coins. ☐ Update: I love playing this game because of the Timberwolf game.. but everytime the video for the free coins pops up the game skips & stalls & the reels skip like when u get 2 owls or an owl & the moon on the 1st & 2nd row the 3rd owl jumps off the screen when a ad for the free coins is about to come.. it does this everytime like there is a glitch in the system there's something wrong with it ive even tried uninstalling it & adding it back but it's still does this.. I've lost sooooo many coins because of this Update: TIMBERWOLF GAME TAKES TOO LONG TO IN THE BONUS!!! Update: Timberwolf game is all I play I buy coins & still don't get bonuses... please add more bonuses to the game .. it's a waste of my real money to when u don't get bonuses out of 11,000,000 plus coins Update: This game needs more ways to get free coins.. & there could be more bonus that pop up.. no matter if I spend money or not I'm just winning like I should. But this is still my favorite casino game because it's the only one that had the Timber Wolf games but y'all should add the Timber Wolf Deluxe game as well
