Google Pay is a fairly new payment option and few casinos accept it – as of now. We expect to see a change in this as Google Pay becomes more well-known. Google Pay emerged from the Google Wallet and Android Pay in 2018.

Examples of online casinos where you can already use Google Pay to make deposits:

If you want more examples I recommend that you take a look at this Google pay casino list.

Google Pay is available from both desktop computers and mobile devices.

Go to pay.google.com and sign in using your standard Google Account. If you don't have a Google Account, you need to make one first.

Once you have signed in at pay.google.com, it is time to add a payment method. Follow the on-screen instructions.

If you want to use Google Pay from a mobile device, download the Google Pay app from the Google Play store.

Then, open the app and follow the on-screen instructions to set up your Google Pay account and start using it from your mobile. Among other things, you will be asked to add information about your selected payment method, such as your credit card information.

No, there is actually a Google Pay app available for iOS devices too. Make sure you select the right app, because the one for Android is not optimized for iOS and vice versa.

Just like Apple Pay, you can only use Google Pay to pay for things. For us casino players, it means that we can deposit money into a casino account using Google Pay, but when it is time to withdraw money from our casino account we have to use some other method.

This is of course a big negative aspect of Google Pay. Most casino players want to be able to both deposit and withdraw money. After all, we play to win.

Important: The payment method you connect to Google Pay, such as your credit card, may still charge transaction fees and other user fees.

To how online use google play to on casinos deposit

Yes, Google Pay works even for very small deposits, as long as the casino accepts very small deposits.

Go to the standard Google Help Centre online and click on the "Need more help?" tab. Select online chat, a callback or email support.

Good to know: Google Pay has a detailed Help Centre on Google's general support website, where a lot of common questions are answered. Here you will also find detailed instructions about setting up Google Pay, using Google Pay, adding/changing payment methods, etcetera. Before you go through the trouble of contacting the customer support, check this section, because it is not unlikely to contain the answer you need.

First published in 2018, the PokerNews guide to the best online blackjack sites on the internet is one of the most popular pages of our entire

The sites that claim to be home to the best online blackjack for money are OK-ish at best.

There are more than 14,000 sites that offer real money online blackjack in 2022.

Most of them don't see you as a player. They see you as a cash cow who can give them real money deposit and personal info to resell to other websites.

That's why it's important to choose an excellent online blackjack Casino from the start. All the blackjack strategies you have studied are useless if the games are rigged. And it's devastating to notice that the games aren't fair only when you try to cash.

If you play online blackjack for real money, you don't log into a top online casino after the fifth beer or after a long night out with your friends.

When you play at a brick-and-mortar Casino, however... sometime it happens.

The last time this happened to me was a couple of weeks ago, in Vilnius, Lithuania.

I entered the casino around midnight and I left at 4 a.m. - with far less money than I had when I went in.

The only good part of the evening is that I did not lose as much as the Polish guy sitting next to me. He kept spreading piles of €100 chips over two tables like those were candies.

I only had one pile of €10 chips - and I didn't multi-table. In other words: I survived.

Since your goal is to play smart and be wise, I have prepared a few blackjack tips that will help you to get better when you play online.
