

How to win dream catcher casino

Dream Catcher does not offer a bonus round in the traditional sense. However, there are two special multiplier segments on the wheel which add real excitement to the game!. When the wheel stops on a multiplier segment, all players with active bets on the board earn an extra spin.. This spin will determine the winning number as usual, but the prize will be multiplied by either 2x or 7x ...

Does the wheel stop on a number you bet on? Then you win the bet you made multiplied by the number. So you can win up to 40 times the stake with the game. If the wheel lands on a box with a 2x bonus or a 7x bonus, the next outcome will be multiplied by that number.

Once all the betting spots have been closed, all the dealer needs to spin the wheel. After the wheel has determined the winning number and all of the winning bets have been paid out, betting is opened for the next game round. Once this happens, you can repeat the previous bet, double your bet, or even place a new one.

Evolution Gaming is well-known for the high quality of its live casino games. Across all platforms, their Live Dream Catcher online game has an easy to use, user-friendly design. The game is fully optimized for mobile devices and runs smoothly on Android and iOS operating systems. It's simple to wager money and there are many settings and options to customize your experience. The autoplay option is useful for long gaming sessions. You may restrict autoplay timers to certain periods of time, allowing you to sit back and enjoy the game. Shortcut keys have also been enabled, with special features such as spacebar to repeat and double bets and delete all bets accessible via their key combinations.

With each opportunity to place your bets, you can choose to bet on all six numbers or just one. Your potential payout will be determined by your original stake and multiplied by the segment number you bet on. To give you a better idea of how the payouts work for each number on the wheel, we've provided a detailed explanation of the payout ratio, which you'll find below.

The host spins the wheel of fortune, who also chats with the players while playing. You can chat with the dealer yourself if you wish. As soon as the wheel begins to spin slower, the camera will be aimed at the wheel and the dealer will disappear from view.
