In terms of the design and layout of the website, there is plenty of information for players as soon as they load the platform. The background of the site is black, which goes along with the black magic theme that they're trying to portray. However, it does give the impression that they're a bit doom and gloom and a bit too gothic for an online casino clientele that prefers to have their day lit up, not the opposite. Yet at least they have backed their theme to the very end, one that is unique in the online casino industry.

In addition to these slot games that are featured on the home page, there are a number of other games for players to enjoy. One way of doing this is using the game category drop down menu which has divided the games lobby into smaller categories, helping players to find their preferred genre of games a lot easier. As well as the featured games that appear automatically, there are video slots, card & table games, classic slots, video poker, micro bet, VIP games and action games. One negative about the site is the lack of live casino titles that players can enjoy on site. Without this, players will feel as if they're not getting access to a selection of games that are so popular elsewhere. It's certainly a negative for the Magik

Slots not to offer live casino titles.

We'll begin with the bonuses. This casino features the welcome bonus – a staple in the arsenal of bonuses of most legit and popular online casinos.

The idea behind this casino bonus is to entice new players to come around and play gambling games at a particular online casino. Once you get over the initial hurdle of making a deposit, it will now be a lot easier for you to make additional deposits again. This is what the casinos pray on. So, be sure to read the terms and conditions at Magik Slots and learn more about how best you can use the welcome bonus. During our 2019 review, we did not find the casino to offer any type of no deposit bonus to new members. You can benefit from other promotions as a real money player. The standard welcome bonus is rewarding and while it lacks free spins, it is a great way to get started. At times, Magik Slots will offer special bonuses that could present free spins and a no deposit bonus may be offered in the future.

We've thoroughly reviewed Magik Slots Casino and gave it a very bad reputation rating, which means it's one of the worst casinos to play at. In our review, we've considered the casino's player complaints, estimated revenues, license, games genuineness, customer support quality, fairness of terms and conditions, withdrawal and win limits, and other factors. Magik Slots Casino is related to other online casinos listed below and its rating is also negatively influenced by them. So, if you were ever wondering whether this casino is safe and legit or a scam, read the full review below to learn more.

Magik Slots Casino has a withdrawal limit of €5,000 per month, which we consider to be a very low value. If you manage to win big, you might struggle to withdraw your money all at once and it might take you several months or years to actually get all of it. If you plan to play higher stakes, it's advisable to look for a casino with a higher withdrawal limit or ideally without a limit altogether.

The minimum withdrawal at Magik Slots is £100 and there is a monthly withdrawal limit of £5,000 when you first register.

In conclusion, it seems as if the Magik Slots website has lost its magical touch. The selection of games could certainly improve and their promotions are limited to say the least. Add the fact they're licensed by an untrustworthy regulator and the design of their website is dark and

According to our research and estimates, Magik Slots Casino is a smaller online casino revenue-wise. It's a part of a group of related casinos, however, this group is still quite small even when evaluated as a whole. The revenue of a casino is an important factor, as bigger casinos shouldn't have any issues paying out big wins, while smaller casinos could potentially struggle if you manage to win really big.

I am a client of www.magik-slots.com/?lang=en that has been brought to them through google search for term 'make money online' where they promote themselves under the form of a 'application that generates you profits' on casino.
