Jackpot City might not be as famous as New York City or London just yet – but it's got more jackpots than either of those cities combined.

It also gets you started with a 100% up to C\$1,600 welcome bonus and gives you multiple chances to win. Let's see why it's our top pick of all the best online casinos in Canada.

Jackpot City is home to around 480 games as we write this. Most of these are online slots (almost 400), while a good chunk of these slots are progressive jackpots.

Jackpot City then claims to reward regular players with daily promos. We found this to be the case but the promos change each week and there's a real lack of info on the website about what you'll get. Still, everyone loves a surprise, right?

Jackpot City excels when it comes to giving its customers what they want. For example, there are 15 different payment options available here, which means most Canadian players will be able to find their preferred method.

Banking options include instant payments, EcoPayz, Flexepin, Neosurf, Interac, and ecoVoucher.

Withdrawals are a tad on the slow side because each time you request a withdrawal your funds must enter a 24-hour pending period.

Launched in 1998, Jackpot City is one of Canada's most established online casinos. It's paid out millions to winners over the years and – from what we can see in our research – it's never disputed a payout.

It's owned by Baytree, which is responsible for a number of other prized Canadian casinos, and it's fully licensed.

You can deposit and withdraw with MuchBetter, Interac, PaySafeCard, iDebit, Neosurf, MasterCard, and VISA.

Withdrawal times can also be a bit hit and miss. Most of the time you should get your money within a few hours, but if there's a huge withdrawal volume, you may have to wait more than 24 hours.

Royal Panda was launched in 2014 by Leo Vegas International LTD, which is one of the biggest names in online gambling.

It is also fully licensed by the Malta Gaming Authority and we have no concerns when it comes to trust or reliability here.

In fact, it's one of the few top Canadian online casinos that currently lets you deposit and withdraw via digital coins.

However, there's an unusual rule whereby you must wager your entire deposit before you can process a withdrawal. This just means you'll need to be a bit careful when it comes to how much you choose to deposit.

Fiat currency payment methods you can pay with, meanwhile, include MasterCard and AMEX.

Slots.LV has a high trust rating, it's fully licensed to operate in Canada, and it's owned and operated by Lynton Limited Casinos.

Cafe Casino has developed a reputation for eye-watering jackpots, bonuses, and high-quality games.

It also performs well when it comes to game variety and works as an all-rounder for Canadian players.

One of the reasons Cafe Casino has grown to be one of the most popular Canadian casino sites in recent years is down to its great selection of games. There are hundreds of slots here, lots of video poker games, as well as blackjack and roulette variants.

Casino online reputable most canada

Blackjack variants you can play include Double-Deck Blackjack and European Blackjack, while the maximum bet limit is C\$5,000. That might be a tad low for some high roller players, but there's no doubt that Cafe Casino is aimed mainly at recreational bettors looking for some fun.

New players at Cafe Casino can choose between a 100% fiat currency welcome bonus and a 250% up to \$1,500 Bitcoin welcome bonus. Wagering requirements are fair for both.

Other than that, Cafe Casino has a few specials that will appeal to regular players. There's a \$100 referral bonus on the table for anyone who successfully refers a friend to this casino site, free spins, cashback bonuses, and a rewards program.

Like Slots.LV, Cafe Casino is another of the top Canadian online casino sites that accept cryptocurrencies alongside fiat currencies. You can deposit and withdraw via Bitcoin, Bitcoin Cash and Ethereum, and doing so means you'll benefit from zero transactions and instant withdrawals.

Fiat currency methods include American Express, MasterCard and check by courier.

Cafe Casino is still a relatively new online casino in Canada. We can, however, vouch for its owners Arbol Media, and it's licensed by Curacao.

Moreover, Cafe Casino has a wealth of positive customer reviews and – from what we've seen in our research – is known for fast and reliable payouts.

PlayOJO is a British-based casino that's available to Canadians. It's got lots of strengths, including an excellent user interface and over 3000 slots, but we have to give it top marks for its bingo games. Here, you can play all the classic bingo games, including 90 ball and 75 ball bingo, and there are a variety of bingo rooms to check out.

That said, where PlayOJO also excels is with its no wagering requirements. No wagering requirements mean you can grab the welcome bonus and collect any winnings without having to gamble any of your own money. Very few other Canadian casinos offer this type of deal.

Canada reputable most casino online

We feel that PlayOJO's table game selection could be better, but there are plenty of top-notch live games on offer.

Casinonic is a solid casino that doesn't really do anything badly. There's no poker, which will disappoint poker fans, but there is still a good selection of games, including plenty of slots, video poker, blackjack and live dealer games.

Casinonic also fares really well when it comes to promotions, offering as it does weekly promos. There are also progressive jackpots to be won.

It's a shame that live chat isn't available round the clock, but we otherwise found the customer support team to be helpful and friendly, and Bitcoin is accepted.

MagicRed ranks high when it comes to offering incentives to all players (new & existing). This UKGC and MGA-licensed online casino seeks to create "magic" with a vast array of slots, table games, live dealers, jackpots, and virtual sports.

At MagicRed, security is a priority as they've incorporated a 128-bit Secure Socket Layer (SSL) encryption. This add-on ensures information shared between the casino and players is safe from data breaches.

Although MagicRed's customer support team reiterates the C.A.R.E (Customers Are Really Everything) work ethic, the fact that there's no 24/7 alternative might not augur nicely with Canadian gamblers.

The company behind Genesis Casino is one of the most established in online gambling. Fortunately, it's got everything that we expect from a modern online casino. This includes fantastic customer service, lots of bonuses and promotions, as well as a themed web design that looks awesome.

Genesis also delivers on the game front, and offers a wide variety of the latest and most innovative online casino games available at the moment.

Payment options are varied, too, and include a variety of eWallets, and while we'd like a bit more information about the VIP program and what's included in it, this is really a minor complaint about an overall sophisticated online casino.

Mansion Casino is another hugely reputable UK-based online casino that's legal to play in Canada. The site is safe and secure to use, the brand itself is one of the most trusted in the online gambling world, and the user interface is slick and very easy on the eye.

Those who enjoy playing casino games on their mobile devices will also be excited to learn that Mansion Casino is available as a downloadable app. The user experience is just as good as it is on desktop, and there are hundreds of mobile games to play.

Some players might be frustrated by the average withdrawal times of 72 hours, but there are at least a wide range of payment methods available, with Mansion covering as many bases for Canadian players as possible.

Bodog Casino is one of the oldest online casinos in Canada currently still available. It was founded in 1994 and is therefore one of the most trustworthy sites you could join.

And while we feel that Bodog hasn't really kept up with the times in terms of its look, layout and game selection, it excels when it comes to sports betting. If you're the type of player who wants an online casino that also comes with an excellent sportsbook, Bodog might be the one for you.

Canada reputable online most casino

The sportsbook is neatly organized, 30+ sports are covered, and Bodog recently added eSports.

The casino section isn't bad at all either, (although live dealer games are missing), and there are plenty of blackjack and poker variants to play.

Royal Vegas is another Canadian online casino that's run by a highly reputable gambling brand. Therefore, it's a reliable casino that you can trust.

Canada casino most reputable online

Indeed, Royal Vegas is one of the oldest Canadian online casinos, having been established way back in 2000. We'd say that nothing truly stands out about the site in terms of what it does differently to any other casino site, but its huge selection of live dealer games, as well as its authentic gameplay, mean we have to recommend it as a live dealer casino.

Other than that, there are progressive jackpots available, the games are provided by Microgaming and other established brands, and there's a decent VIP program.

We'd prefer it if Royal Vegas looked a bit more modern, but any Canadian players who aren't interested in sleek designs and themes may find something to love here.

Online most canada reputable casino

If as a Canadian player you enjoy playing online slots but you're not sure which casino site to sign up to, Leo Vegas represents a decent option. Certainly, when it comes to slots it's hard to beat. It's got almost a thousand to choose from, and these include action-packed multi-reels and video slots, as well as progressive slots and themed slots.
