## Bet online

Believe us, it can be fun to test your sports knowledge! Not only do you earn bragging rights, but you might also profit. To achieve superficial goals, our beloved Canadian bettors may turn to their favourite online bookmaker, our Mr Bet sportsbook. Amongst many advantages we will discuss later, our desktop/mobile-optimized platform makes it quick and easy to place a bet because of its intuitive design. We list all sports, including live, that we cover and let you search for live and upcoming matches and tournaments with European odds. You can deep dive into our betting party right after!

When you're ready to make your next bet online, our Mr Bet online sportsbook platform provides the resources you need to up your game:

Our MrBet online betting Canada platform uses SSL encryption to protect sensitive information from prying eyes. We also employ modern systems used to detect & prevent fraud and money laundering. Furthermore, our secure payment gateway lets you make payment transactions online with complete peace of mind.

Any seasoned sports bettor understands the importance of identifying value bets. In fact, some of our Canadian bettors are quite proficient at calculating their own odds to compare to ours. Because our sportsbook offers competitive odds on hundreds of betting markets, the opportunity to find value is what makes us the best.

We've listed some of our most popular sports events, including tournaments and leagues, below:

Regardless, you can get in on the action and follow the live score from just about anywhere you go.

Here at Mr Bet sports betting, we cover events in over 40 sports. In turn, these extend over thousands of in-play (live sports betting) and pre-match betting markets. Because these include too many betting options to list here, we've listed some of the most popular betting markets among our MrBet Canada players.

The match result market is the most prevalent form of sports betting because it is the easiest to understand. It is very common in soccer (European football). A bettor must decide whether to back the home team, the away team, or a draw.

Conceptually, over/under betting is among the easiest to understand, which is why it's likely so prevalent in sports like basketball, hockey, and soccer. A bettor must predict whether the total goals in a (whole or ordinary time) match will be above or below a goal market.

Let's look at an NHL hockey match between the Montreal Canadiens and Boston Bruins. A bookie's odds on an over/under whole match goal market of 3.0 is 1.12 (over) and 2.50 (under).

## Online bet

A handicap bet is one in which our bookie gives the weaker team an advantage, such as points or goals. The purpose is to even out the chances of either team winning. It's more common to find European handicaps, AKA three-way handicaps, on European soccer matches.

Asian handicaps differ from European handicaps because the bettor gets their stake back when the match ends in a draw.

An outright bet is a bet placed on the outcome of a league or competition rather than individual matches. For example, backing the Toronto Raptors to win the NBA championship next season would be an outright bet.

Bettors who make a bet above our minimum requirement collect free spins on one of our most popular slots. The bet must be made on a unique sports event that is equal to or greater than a minimum bet coefficient of 1.6. It won't matter if you win or lose your sports bet – you still get free

spins!

Online sports betting in Canada is legal in most provinces. However, except for Ontario, these must be conducted through each province's owned and operated Crown lottery corporation. In Ontario, bettors may participate in sports betting through the OLG Crown corporation or an AGCO-licensed bookmaker.

Many bettors in Canada still choose to play at an offshore online betting casino with a sports book. Historically, provincial governments have tolerated this practice. Some bettors found that operators outside Canada, like here at Mr Bet sports book, offer better sportsbook bonuses and betting markets.

Mr Bet is a licensed online casino and sportsbook operator by the Government of Curacao. We offer Canadian bettors a safe and reliable sports betting platform in both French and English.

We accept payments in CAD and USD as well as cryptocurrencies: Ethereum (ETH), Bitcoin (BTC), and Litecoin (LTC). Depositing and withdrawing in C\$ is easy, fast, and safe using one of our Canadian or International payment providers.

Here, at Mr Bet, we've listened to our bettors in Canada and given them what they asked. We make betting online easy, fun and intuitive. Use the header menu to locate over 40 sports, where you can then select your favourite league, tournament, and matches. In total, each day presents our players with hundreds of pre-match and live betting markets with some of the best odds.

Our platform provides plenty of features and tools to support you and enhance your experience. Keep updated on matches with our live score update. You may also be able to take advantage of our cashout option on some bets.

Live sports betting has become more prevalent in recent years. Our bookmakers let bettors exploit profit opportunities that arise as a game unfolds in front of their eyes. Sometimes, our bettors use our live sportsbook to hedge an existing bet, to lock in a profit regardless of the game result.

It's critical to view the match from start to finish if you're going to participate in live sports betting because of the unpredictability. Anything can happen to change the momentum of a match during play. For example, a key ice hockey player, such as a hot goaltender, may get injured.

Alternatively, weather changes can impact individual performances in outdoor sports like horse racing or motor racing. For example, some horses outperform in races with wet and muddy conditions.

It can be challenging to make snap decisions based on observations unfolding quickly. It helps to think quickly on your feet as the odds are changing, which makes the prize even sweeter. We're always standing by, ready to take your bet.
