At the beginning (in 2018), our evaluation was based solely on our preferences, and everything seemed simple and clear. Each of our team personally had tested casino brands that pretended to be on the top list and rated them according to personal preference. But after creating the bitcoincasino.top and trying to visualize our rating, we realized that this approach was wrong. It is impossible to qualitatively and openly prepare research on the gambling market without using a scientific approach. Yes, now for us bitcoin casino review online casino btc with is a full market research and we approach this from a scientific point of view, the result of which is the overall online bitcoin casino rating.

And the share of Bitcoin casinos compares with Online casinos (number of queries in thousands) casino btc online with is the follows:

BTC casino was developed by combining casino btc with online two unique (at the time of 2010) innovations. On the one hand, this is Bitcoin on the other, online casinos. To simplify the task for you, we will analyze them separately.

The support service is extremely important for the stable and successful operation of any best online bitcoin casino. Users inevitably face different sorts of difficulties: during the deposit and withdrawal of funds, online with btc casino while wagering bonuses, and so on. This can be due to gambler's mistakes or a software outage. In any case, a way out must be found, and this is a bitcoin casino support job. It can be considered as the main way for players to communicate with the casino administration. There are several ways to contact support, and each player decides which one is most convenient for him. Our task is to assess the general presence, the response speed of the service team and convert it into the mark which will be a part of the major rating.

Now cryptocurrencies are only being accepted by the world, and so far there are not many technologies that are ready to ensure the massive attraction of the population to the crypto market. Accordingly, the bitcoin rate will strengthen as soon as a solution to this problem appears, but for now, it is still volatile btc casino with online due to stock speculators. Just like in 2017, when bitcoin rose to \$ 20,000 and then dropped to \$ 3,500 within three months, we can now observe the same trend, only adjusted for the price level to which bitcoin rose last year and at the beginning of 2022. Therefore, unfortunately, the future of bitcoin is ambiguous, but with online casinos, the situation is completely opposite.

In addition to our own reviews, we also rely on the feedback online with btc casino and input of players experiences with below average casinos. If you feel that there are any online casino sites which deserve to be named and shamed on our blacklist, do not hesitate to let us know so we can look into it further.

Game selection is one of the key characteristics of any Bitcoin casino. In the btc online with casino end, we come to online casinos for games, we come for pleasure. If there are no cool games at the site, no matter what bonuses or withdrawal speed it has, that won't be a desire to gamble on such a website. Assessment of game selection formed on the basis of comparison number of certain bitcoin casino games and BitcoinCasinoTop (BCT) Quality mark.

Among the majority of BTC online casino players, there is a online casino btc with misconception that Bitcoin is a revolutionary technology that has never been used previously. It's not quite true, all parts of the system were known before Nakamoto. The cryptographic algorithms on which Bitcoin is based had already existed, as a distributed data storage. Nakamoto's genius idea was to combine all pieces into a whole, build the system, and made it work.

What separates our new approach from the old one and from most of the review sites you can find, is the complexity of the research. We can't lower the bitcoin casino rating just because it is following modern trends, even if we don't like it, these are the conditions that the market dictates. On the other hand, it is wrong if the BTC casino is trying with all its might to attract new gamblers, and forgetting about the old casino online btc

with ones. Because of this contradiction and in order to achieve the most objective assessment, we separate external and internal factors that affect the bitcoin online casino. It is worth clarifying that we do not evaluate the factors themselves, we evaluate how well a particular casino ready for the influence of these factors.

However, most online casinos with btc online casino do ask the players to verify their accounts before allowing them to make withdrawals. This has nothing to do with bitcoin, but with their anti-money-laundering policies.

Online casinos were popularizing quickly, and in 1998 they bring in \$ 834.5 million in revenues only in the United States. Such financial results began with btc casino online to attract serious investors, who put up money into the development of new games and sites. At first, only slots were available online, but with time, other classic gambling games also joined them.

BitcoinCasinoTop.com – digital reviewer of bitcoin casinos, your guide to the world of online crypto gambling. Our team is former casino employees mainly from the United States, who decided to unite due to the common interest. In this article, you will find how we evaluate bitcoin casinos and what is the best of them. We will start from the beginning, with how the btc casino with online first crypto gambling sites were created, while you can get acquainted with the modern casino bitcoin list.

In 2013, Cloudbet revolutionized online betting by creating the most advanced Bitcoin betting platform available from any mobile device. Although a lot of time with casino online btc has passed since then, advanced technologies are still the main trump card of the casino. Cloudbet is powered by Betsoft software and they are well known for their 3D games with animated characters who admire, taunt, and dance with every bet. In addition to 3D games, on the site, you will find: slot machines, roulette, poker, various types of dice, and, most importantly, games with a live dealer. Also, unlike all other casinos in our top 5 rating, on the Cloudbet website, you can bet on sports and eSports using Bitcoins. The rest of the necessary characteristics of the top bitcoin casino are in perfect order.

Deposit and withdrawal restrictions at the casino BTC are determined by the maximum and minimum permitted amounts of these actions. Usually, there are no problems with maximum threshold values, for cryptocurrencies they are quite high (bring to mind that among our evaluation, we take into account only cryptocurrencies). Even if you cannot withdraw the entire amount in one payment, you can online casino with btc do it in several, and since the withdrawal of money occurs fast this won't bring problems. Therefore, limiting the maximum withdrawal amount is rather important only for evaluation than for a comfortable game. You might ask if it doesn't affect the game, why is it so important to the rating. The maximum withdrawal amount is an indirect indicator of the casino capital, the higher the amount, the larger the reserve and the more reliable the bitcoin casino. Restrictions on the maximum deposit amount are relevant only for high rollers, and again, the limits at the best BTC casino are very loyal so we don't put too much attention to them.

Casumo online casino reviews

In the end, let's add a little more philosophy and talk about the future of btc casino with online bitcoin casinos. As mentioned in the "History" section, the Bitcoin casino was founded by combining Bitcoin and online gambling sites. Also, in the section "Share of crypto casinos in the online casino market", we have shown that BTC casinos are proportionally dependent on both of these components. Therefore, in order to understand what awaits bitcoin casinos, it is necessary to assess the future of cryptocurrencies and online gambling.

Despite the fact that the assessment of this characteristic is quite simple, this doesn't mean that it is useless. About 40% of BTC casinos users play with smartphones, therefore the mobile version of the website is highly important. As for applications, this is a very rare phenomenon with very dubious casino btc with online advantages, therefore we don't evaluate it.

Como jugar casino online

Bitcoin payments are peer-to-peer transactions, which means that there's no bank or a payment processing company involved. In turn, this means that there isn't anyone you need to pay for bitcoin sending services. That btc online casino with said, BTC casino payments should come with no fees. Unfortunately, there are some online casinos that charge a fee on all withdrawals, regardless of which method is used.

At a time when the crypto culture was just emerging, we created the ICOmaking.com project in order to share useful information about blockchain, ICO, mining, cryptocurrencies, and other tools of the modern crypto world with the public. As a result, having achieved success in this direction, we launched a section on the Bitcoin gambling industry as part of our website. Our readers reacted so well to this that we decided to slightly change the theme of our site and build a new structure based on reviews of bitcoin online casinos. That is how was born BitcoinCasinoTop.com. Having huge expertise in the crypto subject and practical experience of playing in online casinos, we easily took one of the leading positions in this direction. Do you want to make sure of this? Explore website and try btc casino with online to play at Bitcoin casino from our list! You definitely won't regret it!

The second important component of the emergence of bitcoin gambling sites is online casinos. Unlike Bitcoin, the history of online casinos is silent about how and who exactly came up with the idea of creating a website with gambling games. However, it is reliably known who was the first software developer which releases the first online slots. This company is still the leader in the online gambling industry and we know it as Microgaming. The first Microgaming online slot machine was created in 1994 and that moment is considering as the online with btc casino beginning of the history of digital casinos.

Actually, it's just the opposite. Making online casino btc casino with online deposits with bitcoin is no more difficult than making a deposit using any other method. The entire process can be done in a few easy steps.

So, the owners of online gambling sites made a bet on bitcoin casinos, but why? What are the strengths of Bitcoin in comparison to other currencies? We will sort online with casino btc them all out in order, and start with the most important – anonymity.

So, as you can see the share of bitcoin casinos among all online casinos approximately stays at the same level (the average number is 15.5%). But the number of online casino queries raised more than 20% in comparison with the previous year. Based on this data, we can conclude that BTC casinos are very closely related to other online gambling sites, and their growth is interdependent. The reason for this phenomenon is quite simple and it follows from the history of the bitcoin casino's development and the pros of crypto gambling. On the one hand, the pros and cons of bitcoin casinos are very similar to online gambling sites, and on the other, all the software for both is developed by the same companies. So it isn't surprising that they are linking each other. The only difference and trump card in the sleeve of BTC casinos in front casino btc with online of classic online gambling sites it's Bitcoin, and this is obvious. By the way, what about other currencies at crypto casinos, which money could be used to play?

License – a permit from an authority to own or use something, do a particular thing, or carry on a trade. Licensing is a very controversial thing* in any area of entrepreneur activity, and gambling isn't an exception. The situation with bitcoin casinos is even worse than with other types of gambling. Almost all crypto sites have a Curacao license, which cannot be verified for authenticity. In other matters, they cannot be blamed for this, since the only trustworthy license that a BTC casino can receive is a UK gambling license, and its price is extremely high. In turn, then higher the license price, than more casino costs and fewer with casino online btc bonus payments.

The casino will calculate how much your withdrawal is online with btc casino worth in BTC. If you're okay with it, it's time to confirm the payout.

Us online real casinos

The most popular type of online casino gambling is BTC slots. They attract the most attention from the players and bring 70% of the profit for online gambling sites. In some countries, slots are almost a national game, online with btc casino for example in New Zealand each fourth citizen plays slots, by the way, they call them pokies*. If you noticed, there are no slots in our "Number of Bitcoin casino table games" chart. The reason is very simple there are too many of them in comparison with other games, so we evaluate them separately. But as usual, big popularity generates untruthful myths and statements. One of them is that slots work on the basis of RNG (random number generator), and you can read this statement on many sites. But it just physically cannot be true.

One of the key reasons why online gambling fans love bitcoin is that it allows them to go around their bank's limitations. If your bank doesn't do online transfers aimed at gambling sites, you can buy bitcoins btc casino online with with your credit/debit card, and then make an anonymous deposit to any online casino you like.

Similar situation with restricted countries. On the one hand, the more players (from a more number of countries) have access, the casino btc online with better. On the other, some BTC casinos can cheat and hide forbidden countries, as a result, players from these countries will have problems with withdrawing funds. Unfortunately, we are physically unable to check all countries, therefore the question with the license is still open. But we have selected the main number of countries by which we check the honesty of the bitcoin casino, and put a score that is included in the overall rating. These countries are:

This is the main reason why bitcoin is not a too common sight in online casinos. The good news is that some awesome online casinos do deal online with btc casino with bitcoin deposits and withdrawals. As you can see in the list above, we've managed to pick out ten of such casinos. Apart from accepting bitcoin, these casinos are great for many other reasons, including:
