Rudolph's Revenge (available at Red Dog) was our personal favorite, thanks to its advanced gameplay, catchy soundtrack, and of course — a jackpot that constantly gets bigger and bigger.

But each online casino in this article features a few jackpot slots you can't afford to miss, so let's dive in and check them all out.

Nothing says Christmastime like Rudolph seeking revenge on Santa himself! Created by renowned game developer RealTime Gaming (RTG), this slot machine is an addition to RTG's Real-Series video slots, which feature random progressive jackpots.

This five-reel slot machine has an outstanding RTP of approximately 97.5%, one of the best in the industry for progressive jackpots. The wild symbol is Rudolph, and whenever the devious reindeer drops, he substitutes other symbols — except scatters — to produce big wins.

When five Rudolph symbols land on any payline, you win the progressive jackpot, which is often a six-figure prize.

Other big prizes include scatters that can produce a free spins bonus round with extra wilds, and five scatters will garner you a prize of 20x your bet.

Buffalo-themed slot machines are a longtime tradition in both online and land-based casinos, and the classic Golden Buffalo ranks at the top of the list. This slot game features 6×4 reels and a whopping 4,096 paylines.

There are three different winning combinations that produce bigger prizes: reels two through six are stacked with wild symbols, three bonus symbols garner you free spins, and three different multiplier symbols see you win a massive 3,3125x your initial stake!

But what really makes this high-RTP slot worth spinning is that it's one of four slots that are part of the Hot-Drop Jackpot Slots, which are must-win slots with mega jackpot prizes. These progressives have an Hourly Jackpot, a Daily Jackpot, and a must-drop Super Jackpot that must hit before reaching \$250,000.

The Hourly Jackpot drops every hour, 24 hours a day, and often exceeds one-thousand dollars. The Daily Jackpot hits once every 24 hours and is usually worth an excess of \$10,000. The Super Jackpot often reaches near the maximum of \$250,000 before dropping.

Ignition is, perhaps, the most recognizable online poker room operating today. In addition to playing massive poker tournaments against other players online, you can enjoy other gambling options, including jackpot slots, a classic table game selection, virtual sports, and live dealer tables.

The most popular slots are Hot Drop Jackpots, but they also provide traditional slot machine titles with fixed jackpots and ones with progressive jackpots. Ignition also uniquely supplies other progressive jackpot games in the tables section, including Let'em Ride Poker and Caribbean Stud Poker.

If you want to play poker alongside other players and spin amazing jackpot slots, Ignition has the perfect welcome bonus for you — a first deposit bonus of 150% up to \$3,000. This Ignition bonus is split between the poker room and the online casino.

The casino bonus comes with a rollover of 25x — well below the industry standard — so most slot players will find the wagering requirements fairly easy to clear.

## **For money slot real online play**

Each type of casino game contributes a different percentage to the rollover. Specialties and slots provide you the best odds because they contribute 100% to the playthrough, except for Hot Drop Jackpots and Gold Rush Gus, but other jackpot slots can be played with the bonus.

After a long day of work, kicking off your shoes and spinning this lucrative slot with luxurious symbols does sound like a decent idea. This five-reel slot is another entry into the Real-Series Video Slots, so you know there must be a huge progressive jackpot.

## **Real play for money online slot**

The RTP is 95.4%, well above the average for jackpot slots. To win the progressive jackpot, which is often in the deep six figures, five diamond ring symbols must hit on a maximum bet spin.

Other big prizes include the Scatter Bonus, which is triggered when three cash symbols drop, and a Mystery Grab Bag Bonus Rounds that produce big winnings up to \$4,000.

This game was released in the mid-aughts and had the essence of old-school slot machine games from decades gone by. Though Aztec's Millions may feel dated, with spins that can produce some huge winnings, it is no wonder why this online slot has such staying power.

This five-reel slot machine is part of the Aztec trilogy and features the biggest progressive jackpot of them all, ergo the name.

## Real money slot online play for

Aztec's Millions has an RTP of 95%, which is pretty damn good for a progressive jackpot featuring over a million dollars as a top prize.

The progressive jackpot in Aztec's Millions appropriately exceeds \$1 million, and you can win it by landing five logo symbols. Other spins that garner big winnings include landing two to four logo symbols on the reels for a bet multiplier of 5x, 50x, and 500x, respectively.

The idol icon acts as the scatter symbol and can produce winnings of up to 50 free spins when three or more land. Many other symbols give you chances to win big, particularly the tiger symbol, which produces winnings of 10x, 20x, and 200x your bet.

Rich Palms is a newer casino that hit the market in 2020. This Hollywood-elite-themed online casino features vivid colors with a backdrop resembling Hollywood Hills and swanky spa resorts.

## Online real slot play for money

The slot selection has less than 300 games to spin, which is a lower number than what most other top casinos provide. But the titles they do carry are mostly jackpot slots, including many with progressives, and they have many new slots that are well worth spinning.

When you take a break from trying to hit the million-dollar progressive in Aztec's Millions, you can spin video slot machine titles that have vivid colors and dynamic sound effects, including Princess Warrior, which you can play with free spins.

## Online for money real slot play

Rich Palms Casino is giving new players a no-deposit bonus of 60 free spins on Princess Warrior with a max cash-out of \$100.

Because this is a no deposit bonus, the 50x rollover on free spin winnings is higher than the industry average, but since you don't have to spend any money to get this slots bonus, it's worth claiming.

Then, once you see for yourself the fun that the casino provides, you can start spinning other slot titles with a 250% match on your first deposit. This bonus has a much lower playthrough of 30x.

Created by Belatra, this 5x4 reel slot has an impressive 95.5% RTP, a stunning 1,024 paylines, and four big jackpots.

Spinning and landing cascading symbols, wilds, and Star jackpot symbols bring the biggest prizes, with a max coin win of 2,000x your bet up to the progressive jackpot amount, which is usually well into the six figures.

The four fixed jackpots are triggered when a specific number of Star jackpot symbols land: 8 Stars win you 103.2x your stake, 12 Stars win 150.76x your stake, 16 Stars come with a winning jackpot of 202.78x your bet, and 20 stars come with a payout of a 1002.28x your stake.

Some of Bitstarz's game selection is geo-restricted in a few countries, particularly live dealer tables, so don't be surprised if you can't find certain Bitcoin slots. But most of the classic and jackpot slots are available everywhere.

While most of the progressive jackpot slots fall below the industry average of 94%, there are a handful of others that have higher-than-average RTPs, such as 20 Super Stars and Triple X Hot Pepper.

Because we mainly focused on jackpot slots, we first analyzed the number of jackpot slot machine options at the casinos, the variety of jackpot prizes, and the RTP of the winning jackpot title, giving points to the casinos accordingly.

## Online money for slot play real

We understand that most players enjoy taking breaks from spinning to play other real money games, so we gave some additional points for the variety of games available, such as live dealer games, classic table games like roulette, poker rooms, and specialties.

Since we only recommend casinos we'd play at ourselves, another one of our primary criteria was how reputable the casinos were and whether they issued timely payouts. You can rest assured that you'll get paid whatever you win by the online casinos on our list.

Online slots with jackpots created by renowned game studios and hosted at reputable online casinos are not rigged. Each casino on our list is licensed by the Curacao Gambling Commission, with each of our top-recommended games powered by a top-dog developer, such as RealTime Gaming.

That being said, your winning chances are basically the same as when you play at land-based casinos — if not bigger.

RTP stands for return to player, and it is a theoretical number that represents the average payback percentage a player receives by playing a certain slot game.

For example, if you were to spin a slot that has a 97.5% RTP, like Rudolph's Revenge at Red Dog, in theory, you should expect to see a payback of about \$97.5.

## Money play for slot online real

However, that's the mathematical advantage the casino has over players in the long run — you can't expect it to play out by wagering \$100. That's why you have big winners and big losers.

Most industry experts agree that the average RTP for standard online slots is about 96%. That being said, you shouldn't play slots without a jackpot if they don't offer at least 95% RTP.

## **Slot play money for real online**

Most progressive jackpots have an RTP of 94%, slightly lower than non-jackpot slots. However, this usually depends on the size of the jackpot — the bigger the pot, the lower the RTP will be in most cases.

Progressives jackpots get bigger each time players bet and lose. They essentially surrender a portion of the profit towards the big jackpot.

## **Real for money play online slot**

Once a player lands the progressive jackpot, the size of the pot resets to a predetermined amount, and the process repeats until the next winner.

Local progressive jackpots include players from one online casino, and network progressive jackpots include other players from a variety of online casinos, which usually garners the biggest jackpot.

Must-drop jackpots are exactly what they sound like — jackpots that must drop before a certain occurrence. Hourly jackpots must drop within the hour; daily jackpots must drop within the day, and so on.

There are also progressive jackpots that must drop before they reach a certain prize, and they are usually the ones with the biggest pots and most exciting to play.
