I have been playing Slotomania for years. When it first started, i would play about every other day, the slots were more simple, but it was fun and you were able to keep playing for while. Then, the game added more extra features over time, along with a lot more advertising and ways to entice you to spend real-world money. I almost stopped playing it and actually deleted it about a year ago. But i friends who play and loaded it back so i could send them points. Lately though, i've noticed slotomania has made changes, there are still lots of ads, but there are not as many that pop up and interrupt you, slotoquest with the star system was much less annoying and didnt force you to play a cold slot to move forward, and there seem to be more times when more slots have their win percentage increased - kudos to Playtika for listening to its customers to make improvements.

Suggestion - add at least 3 slots at each point in the path in slotquest so we dont get stuck on a forever cold slot like mighty bronc (you can remove that one from your lineup and I would be happy) because having to blow billions of points on a slot that that is paying out at 5% is truly not fun... just aggravating. Thank you for improving your game, I am playing it almost every night now and mostly having fun. Ive event sent you guys a few dollars here and there when i have a little extra disposable income. Keep improving.

Have been playing Slotomania™ for years now. Then suddenly about a week ago, it decided not to let me download the game. Keeps flicking me off. Have not been able to download and play since. Very disappointed. I will keep it for another week, but will delete if I cannot get access to be able to play. Very frustrating, as before this, I enjoyed the 'game'. □□□□□□. December 2021. When I tried to redeem my 'wheel' bonus, it would not download. It has now been about 4 hrs, and still giving me the circular download icon. As it is meant to be hourly bonus, am not sure what is happening. It has frozen, and I can't even 'dump' it, and keep playing. Please help. From Australia □□□□.have tried : cancelling game, but on return same thing. Reset the iPad, no difference. Left it for a couple hours, no change. Please help. Addit: just reopened the app, and it is now working. Just lost several hours of bonuses, but at least I can play. What happened, and why was it necessary to go to this extreme (losing several hours of bonuses) before I stumbled on a remedy. Is there another way of correcting it? Thank you.For the second night in a row, I am unable to play, receive bonuses or even purchase coin. Telling me I am off line, which is incorrect. Again, losing any benefits on offer. Not happy at all with your product. I will again reopen the app, but would prefer not to have to on a daily basis! □□
