Review super online casino lenny

Dear Reader, we regret to inform you that SuperLenny has shut down. We recommend you visit another of the top online casinos. Find them here.

The operator has an exquisite game library and a uniquely designed website. We have visited it multiple times and we would like to pass on our experience to you, via this SuperLenny casino review. That's why we included detailed information on the games and the SuperLenny casino software choices on the website itself, as well as the wagering limits and RTP percentages.

Online review super casino lenny

Basically, there isn't an aspect of this operator that isn't covered in this SuperLenny casino review. And if you want to know more about the live casino and the mobile version, this website also features two full and dedicated reviews which cover these topics.

SuperLenny is an online casino under the UK Gambling Commission licence 39383. The website offers a total of 594 casino games, with over 20 jackpots. The average payout based on eCOGRA audits is 97.00%. The most popular SuperLenny casino game with UK players is Mega Fortune. Expect hundreds of high RTP slots, astounding promotional offers, and much more!

Games are the most important aspect, that's for sure. We found that the SuperLenny online casino has a pretty solid number of games, developed by some of the leading companies in the industry. But it is not just the number of games that matters. We will also tell you about the wagering limits per game category. All these things taken together provide an account of how good SuperLenny's game selection actually is.

The SuperLenny online casino offers a total of 594 games in its library. This is a pretty impressive number, especially since the operator is fairly new. A great deal of the games on offer are slots, which is understandable, knowing that this is the most popular category and that slots games are developed and produced more often than other games. There are 481 slot games.

Twenty of the games feature lucrative progressive jackpots. With more than 100 games that aren't slots, players have a lot of options to choose from even when it comes to other categories. There are 14 roulette games and more than twice as many (29) variants of blackjack. In addition, there are 30 video poker games and 28 table games.

Very few casinos feature this many titles, though you won't find any scratch cards or arcade games of any kind. It can be really overwhelming, but also quite rewarding to have access to so many slot games. We have a few favourite games that we think you might enjoy as well. Jimi Hendrix became one of the most popular slot games ever after it first appeared online.

SuperLenny casino online's games catalogue is truly built to last. It boasts incredible classics as well as some of the hottest new releases. When we add the fact that those titles are brought by many of the industry's top software providers, no doubt is left about the quality of the SuperLenny games. Anyhow, we have selected some of our favourite slots and listed them below.

These five hand-picked SuperLenny games are but a fraction of the amazing slot collection available on the platform. Furthermore, we are certain

that the 480+ slots will satisfy any punter's preferences.

Some of the progressive jackpot games available here have featured prizes higher than £10 million in the past. Mega Moolah and Hall of Gods are two of my favourite progressive jackpot games at SuperLenny. Hall of Gods is a NetEnt slot based on a Norse mythology theme. The highest win exceeds €7.8 million and several other pay-outs have been over €7 million.

With almost 30 different Blackjack games, fans of these classy SuperLenny casino games can be more than satisfied. We really enjoyed playing Double Exposure and Vegas Strip Blackjack, and Re-deal Gold is also very popular.

When it comes to roulette, our personal favourites are Premier and Multi-Wheel. With 28 Table games SuperLenny online casino offers a lot more than its rivals. The list of available games includes: Red Dog Progressive, Baccarat Gold and several others. And if you like Video Poker, you will have a chance to play Deuces Wild, Aces and Faces, Joker Poker, among other games.

If you fancy playing scratch cards and casual games, often also called arcade games, you might be a bit dissatisfied, as the game library doesn't include any titles that belong to these two categories.

Live dealer games really take the online gaming experience to a new level. Fortunately for those who prefer real human contact instead of random number generators, at SuperLenny you can play a range of live games, including baccarat, roulette, blackjack and Casino Hold'em. The live casino is powered by Evolution. If you want to know more, please read my dedicated SuperLenny live casino review.

A lot of casinos have a mobile-optimised website and offer mobile casino games. However, very few can boast an offer that includes over 190 slot games, 11 variants of blackjack, three roulette wheels and nine video poker games. This is a truly versatile mobile offer. You can check out my special mobile casino review of SuperLenny if you want to know more.

SuperLenny online casino is perfectly suited for people with a smaller bankroll, people who are new to online casinos, or people who simply want to wager smaller amounts of money. The minimum bet amount on slot games may vary from 1p – 25p, whereas the maximum is in the range £40 – £200, depending on the game in question.

Blackjack has the same minimum limit, 1p – £1, whereas the maximum limit may vary from £5 up to £40. If you're a fan of video poker you'll be able to play with as little as 25p – £1.25 and a maximum of £5 – £25. As you can see from the limits at this casino, both the minimum and the maximum are pretty low.

With a low roulette and blackjack limit of only 1p you could play up to 100 hands of blackjack or spins of roulette for only one quid. However, high rollers may be somewhat disappointed as the maximum amount that can be wagered on blackjack is only £40.

In addition to wagering limits, RTP (return to player) rates are also very important, and the SuperLenny casino payout is not to be sniffed at. These figures show the amount, or rather the percentage, of the wagered amounts of money that are returned to the players as winnings.

Online super lenny review casino

The higher the RTP numbers are, so to say, the more generous the payouts and players are more likely to win. These percentages are usually calculated per each game category that is available and are given as a range.

As most players play slots, we will start with them. The RTP for Classic slots at SuperLenny vary from 96.30% to 96.80%. Very few operators have such high figures for Classic slots. Furthermore, the RTP percentage for video slots is also quite high, starting at 96.48% it may reach 96.84%.

Review lenny super online casino

This is a very high ratio, as even the low number is higher than 96. SuperLenny casino payouts are higher overall than plenty of rival online operators.

Slots aren't the only games that have a high RTP. Roulette games at SuperLenny feature RTPs ranging from 94.74% to 97.30%. Blackjack is considered to be one of the games with the highest RTPs. The high starting RTP for blackjack is 99.75%, while the top figure is 99.83%. It practically gives players an equal chance here as more than 99p is returned per wagered pound.

Casino review lenny online super

Finally, video poker also has a top RTP percentage that exceeds 99 – at 99.56, and the starting figure is 97.95%. We have to say that the RTP ratio for this operator is impressive. The overall average RTP, according to the last report is 97%, which is better than most others. The RTP is definitely one of the operator's strengths.

In this section of our SuperLenny casino review, we will focus on the deposit and withdrawal methods. To begin with, we are pleased to inform you that British players will be able to choose among debit card leaders like Visa, modern e-wallets, such as Skrill and PayPal, and prepaid cards like Paysafecard. We recommend selecting the most convenient method for you but always look at the T&C.

Unlike the deposits, the SuperLenny withdrawal procedure usually takes about 24 hours. For example, debit card payments via Visa or MasterCard can take between one and three working days to complete the entire withdrawal process. Nevertheless, upon receiving a withdrawal request, the SuperLenny online casino team begins a thorough verification of the account to prevent fraud and money laundering.

What we noticed first when we visited the website to start writing our SuperLenny casino review, was that the website has a very authentic and unique design. It is a breath of fresh air visually, as it is completely different compared to most other casino websites.

It may sound a bit odd if you haven't visited the site yet, but it is both modern and retro. An added comic element makes the website even more appealing, even on the less-interesting terms and conditions pages.

The website is powered by NetEnt, which is one of the top companies in the software development industry. NetEnt have been providing some of the most popular online gaming products for more than 20 years. They currently have offices in various countries, including USA, Sweden, Malta and Gibraltar. The scope of the games that have been developed by NetEnt is so wide, we couldn't possibly get into more details.

Geisha Wonders is a Japanese-themed slot game that features two progressive jackpots. Oriental-themed slots aren't unusual but this one is really a masterpiece. It has five reels and 30 adjustable pay-lines that you can switch on and off, depending on how much you're willing to wager.

SuperLenny has a strong presence in Scandinavia and it is available in English, German, Norwegian, Swedish and Finnish. In addition to NetEnt games, games from other respectable companies such as Microgaming and Yggdrasil are also included. It's safe to say that SuperLenny casino software is nothing to be doubted.

If you want to play SuperLenny casino games, you will have to register and set up an account, as the games aren't available in a demo mode. However, simply visiting the website and registering will be sufficient and you won't need to download anything. Once your account is activated you can play the available games.

There are some things regarding online casinos which can't be noticed at a first glance, and yet are very important for the overall quality and reputation of the operator. Once you visit a website you don't know much about ownership, whether they have the appropriate licensing that will enable them to operate legally. You probably don't know much about the security either.

Casino online super review lenny

However, these things are crucial and that's why we have dedicated the next paragraph of the SuperLenny casino review to these issues.

SuperLenny was established quite recently, as we mentioned, in 2014, and it is owned by Betit Operations Ltd. This company is based in Malta and it is a daughter company of Betit Group Ltd. The current CEO is Joakim Stockman and the company employs more than 150 people. In addition, the company offers two other iGaming platforms – sports betting and poker.

Online super casino review lenny

Both of these are linked with the operator and have the same name. SuperLenny has already been named Best New Casino for 2014 by Casino.se and Norskasino.com, which proves that the owners have a serious and thorough approach. The poker and sports betting platforms are also quite popular. Players are not required to open a second account if they wish to bet across more than one platform.

We have played at numerous online casinos and we know for a fact that communication is very important. Sometimes there are things that need to be communicated with a member of staff and the smoother and more efficient this communication is, the better and more pleasurable overall gaming experience is. There is reliable customer support via various methods in this case.

Online review casino super lenny

Customer support is available every day of the week, from 9am until 11pm UK time and it can be reached via live chat, phone and email. The live chat is available directly through the website, the email address is support-en@superlenny.com and 0044-8008085264 is the phone number. In my experience, it is easiest and fastest to simply phone them and speak with a member of staff directly.

A company isn't legally allowed to operate an online casino that offers services to UK citizens, unless they are registered in Britain and have obtained a licence issued by the UK Gambling Commission. Betit Operations Ltd is registered in the UK, under reference number 39482 and the operator – EveryMatrix Software Ltd – obtained a Combined Remote Operating Licence in August last year.

On the website you'll notice a 'RNG Certified' seal which proves that the games featured at SuperLenny are entirely fair and random. eCOGRA is an independent company which conducted tests that were used to calculate the RTP of the games offered. These tests are conducted on a regular basis.

Due to the fact that personal information is provided via the internet whenever a player opens an account and makes deposits, it is necessary that this information is encrypted and thus secured and protected, so that an entity which isn't supposed to have access to this information somehow manages to obtain it. Here, you'll find TSL (Transport Layer Security) 1.2 encryption is utilised.

This encryption guarantees that the connection, including the transfer of information, remains private and unobtainable by third parties. As for IT security, the Comodo security suite is used.

Not all people have a casual approach to online gaming and often they too need to be protected, mainly from themselves. Therefore, it is possible to set your own deposit limits and activity limitations. With these restrictions, you can be sure that you will only be allowed to deposit and wager amounts that you can afford to lose.

If the situation is more serious and you feel like you need a break from playing, then you could exclude yourself and not be able to access the website for a certain amount of time. Only people older than 18 are allowed to play at SuperLenny and it cooperates with GamCare and Gamblers Anonymous in dealing with problem gambling.

We already mentioned that this operator has already received two awards. Therefore, we have given it one point for Awards out of a possible three. It also earned a point for its fun approach towards promotions. Namely, players will receive assignments by Lenny and when they complete them they can earn BUX which can later be traded for spins.

Super online casino lenny review

When it comes to the other aspects of the game offer, we noted that this operator offers a special game – Dracula. That's why it scored pretty high, getting 2 out of 2 points for Special Games. Unfortunately there's no Loyalty Scheme, so we couldn't award any points for that.

In general, We have to say that we are pretty satisfied with my experience. With a selection of almost 600 different SuperLenny casino games with quite high RTPs, it is hard to say that there are many others that offer similar terms. Moreover, the mobile game library is quite extensive and the live casino is outstanding, even rivaling Griffon Casino.

Lenny review super casino online

On top of that, the website is really fresh and different from most other websites which often look alike. SuperLenny has a lot of positive traits, that's for sure.

However, everything can't be perfect and this SuperLenny casino review wouldn't be complete without mentioning the downsides as well. Firstly, there is currently no welcome bonus up for grabs, and there are very few promotions. Offering promotions is one of the best ways for newcomers to entice players. If you're looking for a welcome bonus, then we would suggest the 888 bonus offer.

Online super lenny casino review

It would've been better if players were allowed to play the games without registering. Furthermore, the maximum wagering limits are quite low. We mentioned above that the site features a great number of blackjack games, but we have to add that Ladbrokes has a better blackjack offer. If you would like to learn more about the UK market, you can check out the best online casino factors.

SuperLenny online casino is a perfect place for British players. The operator offers a great selection of games and various attractive bonuses, provided in a smooth and intuitive web platform.

Claiming bonuses is one of our favourite things about playing at online casinos and we love reaping their rewards. However, in the case of SuperLenny casino online UK, the attractive welcome offer requires a deposit, which is why we have not included the operator in our latest no deposit UK offers list.

British players can acquire their SuperLenny free spins shortly after their registration. To do so, you will need to conduct a deposit and receive the SuperLenny welcome bonus, which includes many free spins. Despite having many excellent categories of casino games, the operator has mainly focused on its slot-related bonuses, just like the best free spins casinos do.

Players in the UK can enjoy the limited but exceptional SuperLenny live section. It is powered by two giants in the online gambling world - NetEnt and Evolution. Because of that, the SuperLenny live casino presents its players with a small yet exclusive variety of the most popular live dealer categories like roulette, blackjack, dragon tiger, and money wheels.

We would like to assure you that SuperLenny payouts are legit. As we pointed out in our SuperLenny casino review, the operator is licensed by the UKGC and the MGA. These licences are guarantees for the website's security and legitimacy. Finally, all SuperLenny withdrawal transactions are done via by top-rated banking companies like VISA, MasterCard, and PayPal.
