There's a vast selection of games available at Stardust Casino. The casino caters to its American gamblers who used to love the old Stardust Casino in Vegas.

We think the game selection is ideal at the moment, but there should be additional options soon. We couldn't fault the casino in this section, so we rated them 5 out of 5.

Whether you're on a smartphone, tablet, computer, laptop, from any manufacturer and operating system, you can enjoy playing casino games at Stardust Casino.

If there ever was a proper throwback, Stardust Casinos produces all the feels of the old-school Vegas casino. The team behind the site's development did their homework to appeal to the nostalgic feelings aroused in seasoned American gamblers.

### **The casino stardust**

The site is set up beautifully and isn't congested. The games are categorized neatly, and the eye-catching colors prompt a feeling of anticipation.

The site was launched earlier this year, so there haven't been any upgrades to date. However, judging by the appearance of the app and website, Stardust Casino will continue tweaking its platform to suit the players in the market.

### **Casino the stardust**

It's often essential for players to speak to a representative of Stardust, and while the site claims to have email access, we couldn't locate the address. Additionally, they have an FAQ section that redirects the user to their holding company's site, which is confusing.

Furthermore, they lack a telephone number for players to call when they have an issue. Based on what we've experienced, we rated Stardust 2 out of 5 for customer support as there simply isn't enough.

### **Casino the stardust**

Stardust claims that players can contact their customer support in the following ways.

It's difficult for online casinos to be unique in this day and age because they all use the same gaming software providers, which offer the same look.

### **The stardust casino**

However, Stardust does its best to take you back in time with the look and feel of the site and app.

Since the platform tries to be different, we rate them a 4 out of 5 in this regard.

### **Stardust the casino**

The appearance of the platform is undoubtedly different. It pays homage to the famous brick-and-mortar casino that used to be one the best on the Strip.

Additionally, Stardust offers a \$10 welcome bonus just for signing up, which other online casinos are afraid to do or haven't done yet.

### **Stardust the casino**

We think that Stardust Casino is worth a shot for seasoned and new gamblers. Their bonuses and ongoing promotions are desirable, along with their selection of games and convenient payment methods.

However, there's a long way to go for Stardust to compete with some of the heavy hitters in the online casino industry here in the US. They should plan for improvements to one day be the best online casino, at least in New Jersey.

### **Casino the stardust**

Since Stardust is a new casino, there will be teething problems that require some attention. We think these are:

Having judged the site on our 8 specific categories, it's clear that Stardust failed in one of those - customer support. We hope that they improve this soon so that more players can trust to contact a casino representative when the time arises.

Considering all the relevant sections of our review and because this site was supposed to be a replacement for Betfair Casino, we rate Stardust Casino 5 out of 5 overall.
