Spinning some vitality into a classic, RTG brings us the 777 slot machine. It's a familiar 1 payline, 3 reel game with a little more gamble than your average video slot. These traditional reels bring back old school slots fun with its retro design and a nostalgic hold feature to appeal to fans of a classic land-based slots cabinet.

Malaysia casino 777 vegas online

You can choose to bet normal, high, or super stakes when you play the 777 slot online. Rewards for your gamble include multiplier wilds and a progressive jackpot.

Software developer, Realtime Gaming, is the brains behind this game. The game is firmly in the three-reel classic slots category and while the team has added some punch in the mechanics, the 777 slot has a simple and very traditional design. The frame hosts three barrel reels with a central gold marker highlighting the single payline.

Vegas malaysia 777 casino online

The payable sits to the right and lights up to indicate your win. The backing track is the buzz from a casino floor – white noise from people and machines. The design leaves you in no doubt about the nature of gameplay – this is classic slots action through and through.

The gamble and the risk are very much at the heart of the 777 online slot. You can choose three staking levels, normal, high, or super, to suit the level of challenge you want to take on. Although the minimum bet is just 0.25, it's not a game for safe bets.

Casino online vegas malaysia 777

You will optimize your chances of hitting a win by choosing the hold feature and paying an extra bet. The cost of each hold is always indicated (and also recalculated, if you choose to hold two reels). The higher the win potential, the higher the cost of the extra bet. Sure, it's a gamble but then again, that's the nature of the game, isn't it?

A classic feature of almost any slot game is the wild symbol and in RTG's 777 online slot wilds pack a real punch. They are the key to the biggest wins possible. You'll get a prize for landing just one on the payline and it can also substitute for other symbols, so if a wild completes a win line, it'll triple your prize.

Malaysia casino online 777 vegas

Similarly, if you land two wilds on the payline, you'll get a prize. But, if two wilds substitute to make a winning combo, you'll get a 9x multiplier of your prize. To score the progressive jackpot prize you'll need to land all three wilds on the payline on a spin where you've paid a super bet.

RTG's 777 online slot is ideal for classic slots fans and those who love a risk. But, it's also great for fans looking to change up the mood and variety of their game.

For more hot action on three reels, you should look no further than Barcrest, who have been making slot machines since the late 1960s. A popular title is 7s on Fire with its Big Bet option and high volatility. If you prefer your volatility a little less hot then Barcrest's 7s to Burn is another sizzling title in the series.

For a top example of a modern reboot with an exciting design, Swedish developer Quickspin's Diamond Duke is another brilliant slot. 5 paylines of volatile action host a graphically modern take on a classic three-reel game.
