

Videoslots withdrawal time

Withdrawal time videoslots

In 2011, a group of Swedish casino enthusiasts launched Videoslots – a name known around the world as a safe and scam-free operator. Despite its name, as our Videoslots review shows, this operator excels in more than just slot games. Read on to get the full picture.

When choosing an online casino, it can be tricky to know which ones are the real deal, and which ones might be taking you for a ride. This Videoslots review will take an in-depth look at the entire site to ensure that this is an entirely legitimate organisation, holding the required licences, rather than a Videoslots scam.

This site has a simple and clear design which is easy to use and navigate, even if you are fairly new to the world of online gambling. The menu bar across the top means that you can find your way around without any trouble and exploring the selection of games on offer is also made simple. Locating the Videoslots licence is also a cinch. Here are five quick signs that Videoslots is a safe online casino:

Of course, Videoslots is predominantly designed for people looking to play online slots, both classic and video. While it does offer a range of other games, unsurprisingly these are vastly outnumbered by the slots. Unfortunately, while the site does claim to offer live casino games, which are currently an extremely popular form of online gambling, when we tested the site the live casino section was empty, and we were unable to find or test any live games.

Withdrawal videoslots time

We had a look at more than just the game selection while reviewing Videoslots though. This Videoslots review takes a thorough look at the entire site, to make sure that everything from the licencing to the customer service is up to scratch. It can be difficult for new users to be certain that the online casino they choose is legitimate, and everyone wants to feel safe when they are playing online – especially when you're playing with real money! That's why we have gone through this site to make sure that there isn't a Videoslots scam; read on to see what we found.

If you only check one thing when you're playing at an online casino, that thing should always be to check the licences an operator holds. If a casino is operating in the UK, it must hold a licence from the United Kingdom Gambling Commission – this is a legal requirement and if this licence is missing then we would not recommend that you play on that site.

The Videoslots licences are from both the UKGC and the Malta Gaming Authority. This second licence is very common, as many online casinos are based in Malta. As this site says, "Malta means living and breathing gaming since this island is the gaming hub of Europe", and many operators choose to base their companies there, which means that they are also required to hold licences from the MGA.

The Videoslots bonus offer comprises a matched deposit up to £200. This is fairly common in the world of online casino new player promotions. So, pretty standard stuff in other words. Should you be after a bonus offer with a dash of panache, you should browse our guide to UK online casino bonuses for the latest and greatest deals out there today.

Time videoslots withdrawal

The playthrough rate in the new player bonus of 35x is also in line with the industry norm. It represents a fair figure that you will likely see at the majority of trusted online casinos in the UK. Check the table below for the full details about the Videoslots casino bonus.

One factor some of our readers often overlook is the validity conditions of promotional offers. The Videoslots bonus requires players to enjoy the offer within a generous 30-day period – any dallying beyond that and you can wave goodbye to any winnings. Don't say we didn't warn you.

The number of games available on this site is truly impressive. While some online casinos focus on a small catalogue, at Videoslots you can choose from more than 3,700 different games, so this is a great place to try out a large variety of games and branch out from your usual favourites. If you are wanting to stick with what you know and love, this shouldn't be a problem either as this site offers games from over 70 different software

developers, so chances are they've got something from whichever might be your favourite.

As we've mentioned, this operator is serious about its slot games. Whether you're wanting a classic game or video slots, there are literally thousands to choose from. Slots are an incredibly popular form of gambling since they are simple and easy to use, and often have large jackpots to make the game more exciting. This site offers a large number of jackpot games, its biggest being the progressive jackpot, Mega Moolah, which often offers jackpots into the millions of pounds.

Time withdrawal videoslots

On most slot machines, the jackpot is set at a fixed amount, but progressive slots let the jackpot rise as you (and other players around the world) play. This site offers progressive games in both its video and classic slot games, meaning that there are numerous different options depending on the kind of money you're looking to play with or win. Remember, there is also the play for free option, which allows you to play certain games without using any real money. So you can get used to a new game or try out your strategy without risking actual money.

Although this casino is serious about its slots, it still has a variety of table games too. You can play poker, blackjack, roulette, bingo, baccarat, and numerous others. It offers variations of most of the classic games, so despite it not being the main focus of the site, there are still some great options if you're looking to play table games. Scratch cards are another type of game offered by this operator, which are popular but not always available at every online casino.

As we've mentioned, the live casino section of this site doesn't seem to actually display any games at the moment. If you are looking to play live casino games, have a look at this list of the best live casinos for this year.

It's definitely worth noting the range of software developers available on this site too. Each developer's games have their own unique style and feel to them, so many people have distinct favourites. As a general rule of thumb, the more developers a site provides the better, since this means there is a larger variety of games on offer.

Videoslots withdrawal time

Videoslots offers a wide selection of games from nearly all the big names in online gambling, including NetEnt, MicroGaming, IGT, and Play'n Go. However, size isn't everything and this site also has games from some of the smaller software developers who are known for their high-quality games. ELK studios make a very small number of games, but they are all of a very high standard, with quality graphics. Similarly, Thunderkick makes only video slot games and currently has less than 30 available, but these have great graphics, original music and unique gameplay. Both developers feature on this site.

Once you are happy with your choice of operator and have successfully registered a casino account, it is of course time to start playing your favourite games. But first: you'll have to add funds to your player account. Banking and transactions go hand-in-hand with gaming online luckily for its customers, Videoslots offers multiple methods of making a deposit and withdrawal.

At the time of writing, this casino offers: PayPal, bank transfer, Trustly, all the major debit cards, paysafecard, Neteller and Skrill to name a few. The casino itself does not charge banking fees, but payment provider may incur charges, so it is wise to check this before you choose one provider over another.

As well as checking for the necessary licences, it is always a good idea to have a look and see if there are any trusted businesses affiliated with the site. Whilst by itself this isn't a guarantee of legitimacy, most companies will do their research before they associate themselves with a site, and it's reassuring for you to see big name companies endorsing the operator. This particular site is linked to gambling resources such as GamCare and BeGambleAware.

Time withdrawal videoslots

It also has some household names such as Visa Electron, Maestro and PayPal as some of its payment options. Additionally, Videoslots ranks among the top Payforit online casinos. The combination of correct licencing and familiar, trusted associates can put your mind at ease about the validity of this site – this is no Videoslots scam.

One thing our Videoslots casino review loves is the fact that this operator holds licences issued by gambling regulators in the UK and Malta. As such, players can rest assured that this is a trustworthy online casino. Part of the Videoslots licence means that it is always held accountable for its actions when it comes to player safety and protection from problem gambling.

Further requirements for this casino under its licences include proper payouts for winning customers and safeguarding players' personal information and data. Thanks to encrypted 128-bit SSL technology, we can safely say that there is definitely no Videoslots scam afoot. In other words, hackers are wasting their time should they try to break into this operator's system.

Players can contact the Videoslots customer care team by e-mail or live chat. While putting this operator through its paces for our Videoslots casino review, we were very pleased to see a responsive Live Chat function, where players can receive rapid assistance with minimal fuss.

Withdrawal time videoslots

One downside we found during our Videoslots casino review tests was the lack of an FAQ section. For many players, frequently asked questions are a quick and easy way of handling minor hiccups or navigating a new casino without needing to contact a customer representative. We would like to see the addition of FAQs in the future, and should it happen, we will update our Videoslots review and rating accordingly.

Our review of Videoslots ends on a good note, as we feel this operator ticks all the boxes of what constitutes a modern, attractive online casino. Well managed, law-abiding, fully licensed, and, not least of all, a thrilling casino gaming experience, this brand has been around for a long time already and continues to stay on the up.

The games library boasts over 3,600 games – a portfolio that puts Videoslots up there with the best online casinos on the market right now. As the name suggests, slots are the focus here, but there is a healthy offering of almost all other kinds of games – provided by top software studios to boot.

We hope our casino review has put your mind at ease when it comes to the question of whether there is a Videoslots scam to be wary of. That said, there is plenty to learn about this popular operator, so if you want to go over the most important points once again, simply check our FAQ section below where we answer reader questions with links to the most requested aspects of our review.

Time videoslots withdrawal

You bet! Our Videoslots review team have concluded that this is a legit operator. The casino is regulated and holds a valid licence from renowned bodies. Learn more about Videoslots licence creds with our mini guide to security and regulation.

Safety takes priority at this casino! Our expert team of industry insiders have conducted a Videoslots scam check, which you can read above, and have concluded that this operator is perfectly safe for UK online casino players. You can play your favourite casino games with complete peace of mind, in other words.

Come right this way! While there isn't an exclusive bonus in this review or in any review for that matter, Videoslots offers a special bonus for new players, which you can access via our review above. But first, check out the Videoslots welcome offer with our quick guide to the bonus and terms before you activate the promo.

Why, naturally! It only takes a nanosecond to see that Videoslots is a real money casino where you can fill your boots with online casino gaming. To partake in its offering, you'll first have to deposit real money into your player account via one of the multiple trusted casino payment options listed above in our guide.

Videoslots time withdrawal

No way! Videoslots is certainly not a scam casino, which we can say with conviction after running a thorough scam check. Now that you know this operator is safe for playing, why not check out all the other approved and safe online casinos reviewed on our site?

The bonus of Videoslots is a matched first deposit offer. In our opinion, the offer comes with fair and reasonable terms. However, this casino is by no means one of the low wagering UK casinos on the market, but it is still an attractive welcome bonus for new players.

You're asking the right questions! Using the average from the RTP rates of all of the Videoslots casino games in its library, we have calculated that the payout rate of Videoslots is 95.27%. Looking for something even better? Head to our guide to the top payout casino games in the UK for more.

First step: make some winnings! Step two is even easier, believe it or not: to withdraw money from Videoslots, all you have to do is first verify your player account, head to the cashier, and select your preferred withdrawal method.

Withdrawal videoslots time

Sure thing! Videoslots is one of our top-rated PayPal deposit casinos, so it is an acceptable payment provider for UK players registered with this casino.

Gamble responsibly. Bet with your head, not over it. If you or someone you know has a gambling problem and wants help:

Videoslots Casino is among the most trusted names in the iGaming world. They're known for offering an insanely large selection of games, they have a ton of great bonuses on offer, and they continually win awards – including here at Casinomeister: Winner of the coveted Best Casino of the Decade 2010-2019 – for their outstanding service. We strongly recommend Videoslots, and they're one of the most trusted and reputable names in the world of online gaming.

One caveat is that their game RTPs are not set at the highest level. This may affect your gameplay time period so please keep this in mind.

Withdrawal videoslots time

This casino may or may not be licensed in Ontario. If you are a resident of Ontario, please contact casino support to clarify this.

In this Videoslots Casino Review, you could find some of the main aspects to take into account before you decide to play there. Let's start:

Videoslots is a relative newcomer to the online casino scene. But even so, they seem to be doing most everything right. Their customer service is helpful and articulate – and their casino rep in our forum is on top of everything. Their payouts are relatively fast, and they are flexible if you want your payout limits raised. The bottom line is that they are making a huge effort on pleasing the player – and that’s something that players should value.

Take a look at the Games and Software Section below, to find out more info about this awesome casino.

Videoslots time withdrawal

They are very well connected and understand what players want. Their company is small yet concise – they are not some out-of-touch corporate behemoth that is solely concerned with the number of depositing players that they can obtain.

Videoslots is more concerned with what they can offer the player. One major item that sets them apart from their competitors is the listing of the payouts for all of their games – these can be found at the Payouts tab on their main site. These are up-to-date and can be sorted by game, actual or theoretical RTP, its popularity, and high or low RTP (I guess so you know which game to avoid). It’s a brilliant concept that I wish more casinos would implement. It’s truly a user-friendly experience.

They are quickly becoming a favourite with our United Kingdom, Canadian and Australian visitors. Just look at the list of forum threads posted at the end of the article.

Keep reading out Videoslots Casino review to find out more about the site and what it has to offer.

Videoslots withdrawal time

Deposit limits/wager limits/and loss limits can be set - per day / per week / per month

The casino has started to offer lower RTP games to players from some countries.

Videoslots Casino offers one of the best deposit bonuses (with a low minimum deposit limit) and the most generous on-going bonuses you’ll find at any online casino – and it’s one of the reasons why so many players choose Videoslots over other casinos. From a matched deposit bonus to free spins, Videoslots has it all – and below, we’re going to take a look at what you, as a new player, can expect when claiming one of the site’s bonuses for yourself.

As you play more at Videoslots you’ll start to complete achievements. This can lead you to get wager-free bonus prizes, free spins, and even one of the site’s jackpots – won on The Wheel of Jackpots – and here’s how it works:

Withdrawal videoslots time

“You can win spins by completing achievements in “My Achievements”. When you complete an achievement, you win a trophy. Behind some of the trophies, you can win spins that are randomly hidden behind them.”

It’s a fantastic promotion, and one that mimics what we see at other leading online casinos like Casumo; the more you play, the more you get rewarded!

On the site, you can find a table of all the Prizes. Regardless of your XP level, you can win a spin to a higher XP wheel! This is exciting because the highest XP Wheels have the biggest prizes.

Despite the name, The Wheel of Jackpots itself is not a game, but a reward system that gives you bonuses and a possibility to win one of the three jackpots. Only one person can win the jackpot at the same time. The jackpot winnings are wager-free!

Time videoslots withdrawal

At Videoslots, the site keeps a portion of your winnings in your personal vault. They then move 0.5 percent of your winnings to your vault for every winning wager you make while playing one of their Video Poker, Video Slots, Live Casino, and Jackpot machines.

Winnings that accumulate in your vault over the week are immediately paid out to you on Friday of the next week, just in time to help you get through the weekend. You’ll have greater leverage over your gaming budget as a result of this.

Your wagers are earned on a regular basis and paid out weekly in arrears. Any earnings are paid out on Friday of the next week, so if you play in week 30, you’ll get your booster funds on Friday of week 31.

If you don’t want to wait for next Friday to cash out The Weekend Booster Vault, you can do so at any time by pressing the ‘Cashout’ button within your account, too. Here, you’ll also be able to keep track of how much you’ve earned so far – and this is accessed through the “My Account” section, and selecting the relevant promotion.

Withdrawal time videoslots

Previously known as the Battle of Slots, The Clash of Spins is Videoslots' new slots tournament – and it works in a near identical manner to how the Battle of Slots promotion used to work.

Each day, two types of tournaments run; Spin Clash and Big Win Clash.

You don't need to register to take part for these bonus tournaments – and all players are automatically opted in. You'll find new Clashes starting 24 hours a day, 7 days a week, and once one finishes, another begins right away – so it's a great way to try and win a bit of extra cash while playing a game you love, anyway!

Like any reputable online casino, Videoslots Casino offers all new players a generous welcome bonus – and we feel it's one of the fairest deposit bonus offers you'll come across online.

Withdrawal time videoslots

The main welcome bonus at Videoslots Casino is delivered in the form of a 100% matched deposit bonus of up to \$200. This is only valid on your first deposit – so if you don't claim the welcome bonus when making your first deposit, you won't be able to claim it at a later date.

The first deposit bonus also comes with really fair terms and conditions; for example, the wagering requirements are just 35X, and the minimum deposit to claim the first deposit is just \$10! You can easily keep track of the wagering requirements – and how long you've got left to go – within your account section at any time.

Now, when it comes to paying out the bonus, Videoslots Casino does things a little differently than many casino sites.

As you complete the wagering requirement restrictions, the bonus will be paid out in \$10 increments. These \$10 increments are then available as real-money – so there aren't any more wagering requirements attached, so you can withdraw it! It's really easy-to-use, and it offers new players the chance to claim one of the best bonuses we've seen at any of the online casinos we've reviewed; plus, you've got a full 30 days, so you don't need to worry about meeting the wagering requirements within 24 hours, like at many sites!

Time videoslots withdrawal

While the casino doesn't offer a no-deposit bonus, you can claim 11 welcome spins to use on NetEnt's Starburst slot – and all you need to do is register an account and make a deposit within 24 hours. Your 11 free spins will then be automatically credited to your account – and you can use the free spins right away! Only your first deposit will allow you to claim this particular online casino free spins bonus at Videoslots Casino.

This bonus is ideal for any player thanks to its fair rules, you just have to remember to make the deposit and use the spins on time!

Videoslots Casino offers a huge selection of deposit methods – one of the biggest selections we've seen at any of the casinos we've reviewed – and you'll find yourself able to make deposits and withdrawals using: VISA and MasterCard, ApplePay, CashtoCode, Citadel, ecoPayz, EUTeller, Instadebit, Skrill, Interact, MuchBetter, Neosurf, Neteller, Skrill, Rapid Transfer, PayPal, Trustly, SIRU Mobile, Venus Point, Zimpler and, in some cases, a direct bank transfer.

Some payment methods, like SIRU Mobile are only available to players in certain countries. Like most casinos, Videoslots has a minimum deposit limit – but it's just \$10! Deposit \$10 and begin playing your favourite game right away – it's that simple, as all deposits are credited to your player account instantly. Plus, whether you deposit \$10 (and you can deposit \$10 on virtually all payment methods) or \$1,000, Videoslots does not charge any fees!

Withdrawal time videoslots

As an added bonus, Videoslots also allows you to save certain payment methods; this is a bonus as it prevents you from – for example – having to manually enter your debit and credit card details each time you make a deposit.

Videoslots Casino is famed for its fast withdrawal time frame; they process withdrawals 24 hours a day, 7 days a week, and often process withdrawal requests in under 5 minutes!

Of course, the speed of the money transfer varies per payment method, although you have a large selection to choose from, with most payment methods available for both deposits and withdrawals. All players are given one free withdrawal per day, with subsequent withdrawals costing \$2.50.

In our Videoslots Casino overview, we looked at what the site has to offer in terms of responsible gambling resources, and you'll find that there are many references to the tools available throughout their website, easily allowing you to see which tools are on offer to you – and how you can use them and set them all up.

Withdrawal videoslots time

Videoslots offers users the option to stay in control by setting limits on how much an individual can afford to play. The site allows players to conveniently access a login-time limit, deposit limits, wagering limits and more.

You can also use the “time out” option to temporarily shut down your account for 24 hours, 7 days, or 6 weeks if you’d like to take a rest. Videoslots also has a complete self-exclusion feature for those who believe their online gaming has gotten out of hand. If you feel the need, you can permanently close your account or shut it for between one and five years. This action CANNOT be undone.

We were happy to see that Videoslots allows you to set your OWN responsible gambling limits – so there’s no need to hop on the live chat function, as you can implement them all by yourself, in the “My Account” section of the site.

You can contact the Videoslots Casino customer support team at any time – they’re open 24 hours a day, 7 days a week. The casino offers a live chat facility, and, in our opinion, this is the best way to get in touch, as, using live chat, you’re not left waiting long for your problem or question to be resolved.

Time withdrawal videoslots

Support at the casino is offered in English, German, Swedish, Finnish, Danish and Japanese, and you can even contact the casino through live chat using the mobile casino!

If you prefer not to use live chat you can also email the site directly, or request a phone call. Their customer support team is incredibly helpful, responsive and they’ll do all they can to ensure your queries are taken care of quickly.

Videoslots routinely perform KYC checks. This is a provision imposed by the casino’s online gaming regulators, with the United Kingdom Gambling Commission playing a central role. Whether or not you live in the United Kingdom (UK players must pass account verification before they can play), there’s a good chance you’ll be required to perform the KYC verification process – normally anytime you cross a predetermined deposit threshold or make a significant withdrawal.

While players may find it annoying, it’s something you’ll find at all licensed casinos, and it’s part of a “Play Responsibly” motto that the most reputable sites are doing their best to follow.

Time withdrawal videoslots

You’ll also be asked to provide evidence of your address/residence, which you can do by sending in a utility bill, checking account statement, or government letter (all provided during the past three months) or other official paperwork that clearly shows your full name and address.

If you use certain payment methods – debit and credit cards, for example – you may also need to provide ownership of this. Usually, you simply need to upload a photo of you holding said card, blacking out the first 12 digits of the long card number for security.

Playing at Videoslots Casino on your computer is a simple and enjoyable activity. The online casino is extremely simple to use, and everything from signing into your account to making withdrawals and deposits to discovering slot machines is made simple by their user-friendly design.

The site also has a fully functional mobile casino, and Videoslots offers a massive amount of games for your phone. If you are checking out casinos with your mobile, tablet or handheld device, you really need to check them out. Videoslots supports iPhones, iPads, Android devices, and Windows. Hundreds of games at your fingertips without needing to download or install any apps or third-party game clients.

Videoslots time withdrawal

Players will find virtually all of the slots at the online casino available to play in the mobile casino, and you’ll be able to find the game you want to play and begin playing in seconds, thanks to the easy-to-navigate and easy-to-use user-interface. We also found the mobile casino to be very fast – so you won’t have any problems getting started.

A massive amount of games can be found here. As the casino name suggests, they are primarily focused on video slots. The hosted game providers include Betsoft, Microgaming, Play’N Go, NYX, Multislot, Yggdrasil, NetEnt, IGT, Push Gaming, Cryptologic, NextGen, Quickspin, Rabcat, Genesis, Leander, Thunderkick, ELK, Scientific Games, 1×2 Gaming, Endorphina, GamesOs, Big Time Gaming, Playson, Aristocat, Playtech, iSoftbet, Shuffle Master, Ainsowrth, Rival, Wagermill, Lightning Box, 2By2, Barcrest, Bally, Williams Interactive, Casino Technology, Relax Gaming, Skillzz gaming, GameArt.

This massive number of game developers ensures you can enjoy a large selection of games, and it’s one of the reasons why the site is known for being one of the best casino sites for slot players – their selection of games is simply world-class.
