When creating a custom modpack for your server, it is generally okay to include builds from other popular servers or bases upon which other mods can be added. This will help add variety to your server and make it more interesting. Players will love to explore new areas and find things that have been added by other players. You can make your server unique and attract lots of new players by using this method.",

These kinds of mods can be used for preventing griefing in multiplayer servers. They are used to prevent other players from destroying your buildings or interfering with them in any way. Other Mods: You will also find a lot of different types of Minecraft mods that you may not have considered before. There are many different ways that they will change your game and make it so that you have an awesome experience every time you play it!",

Realistic resource packs are a good option for adding in visual elements to your game. They will make the world more realistic and give it an old, natural look that may be pleasing to the eye. Other mods may override this however, so if you want your resource pack to be compatible with other mods, you should check each one before getting them listed on your server as addons.",

What is a Minecraft Server Offline Mode? – The offline mode for a Minecraft Server means that all of the plugins are turned off and you can just play the game as if it were only you on the server. This is nice for those who just want to play Minecraft on their servers without having to worry about anyone else's creations. It does not mean that you are left in your own world, but rather that your server will be private and no one else can connect unless they know your IP address. If someone were able to connect, then they would simply see a world that is completely empty with no buildings or trees. The only way that anyone would be able to connect to your private server would be from a direct connection through the same IP address that you provide in your network settings. If you do not want to use this method, then simply make sure that nothing can be edited by anyone except for yourself.",

The best part that I like about Minecraft Bedrock Edition is that you can play right away on your server without spending money on a gaming box or 3rd party antivirus software. You don't need to install any software or extra hardware in order to make it work. The process of starting your server is very simple and anyone can do it, so you'll be playing in no time! You can also make purchases with in-game currency for extra characters, skins and other stuff from the Minecraft Marketplace, so if you decide to buy something from there you won't have any problems or issues at all."

2021-05-02 Note: In this version of Minecraft, we still allow players to release modified versions of the game. However, servers must use the Minecraft branding for server names and server skins."
