Good but needs work by MadJoeDandy on 2021/02/16 14:50 Haven't played this in a while but seems like it hasn't been updated much since iOS 8 was introduced. There are a lot of ads but not the annoying adds found in some other games. I get that you need money to keep it running but includes really not necessary. The game is fun and it's OK. It's hard to get rid of those stupid ads though",

Users have criticized Coin Master for its monotony and reliance on making users pay real money to progress in the game. Buyer's Beware by Meelzamax on 2021/11/07 07:26 This game starts out amazing, and if you spend money or wait months to progress. But the developers are greedy, want you to spend a lot of your time in the game or spend actual cash. The problem is both I think. One day I was playing it was a normal day and out of nowhere my kingdom got deleted for no reason at all. I emailed them and they said that someone else had reported someone with my name, but there was only one other person with my name on this planet playing this game. Now most people would say that I could just make another account... good luck. The process takes like a week and you have to start over from square one. Once you do, if you're at an advanced level, the game is set up so that you will no longer play it...in other words they are banning you because people will eventually find a way to cheat as there is no spam filter and they delete any account with more than one person on it. Either spend lots of cash or just don't get into this game!",
