On December 19, 2012, an interview with Roblox developer "UberHaxorNova" titled "Roblox: An Inside Look at the Top Builders" was posted to YouTube. In the interview, he discusses how he was able to build his first successful game within a few days of playing Roblox. He also discusses how Roblox is an important part of his life and that it has allowed him to make a living from doing something that he loves. The interview received over 480,000 views within the first few days after being uploaded onto YouTube. His channel now boasts over 1 million subscribers as of April 2018.

The majority of players on ROBLOX do not have any way to benefit from the game anymore because they're not willing to pay real money for fake money (robux), so they get bored and quit. They know there is no value in this game so why should they waste their time on it?

On December 21st, 2011, the game "Infinity: The Quest to the End of the Universe" was released by a company called "Awaited Studios". After this game was released, it came to light that much of its code was being used in ROBLOX's main source code.

Rated 4 out of 5 by Anonymous from Great for kids I love this game because I have good time with my friends. For example, we build houses and race cars. I think the game is fantastic and it helps me to learn better. It's not just for kids because sometimes adults play it too. I love it so much and think other kids should play it.

14. The only way to get a game on Roblox or get updates onto a game is through requesting it by going to the developers profile on Roblox and requesting the game, as well as getting the updates, and other stuff that goes on within the platform. 15. When people talk about games that do not function properly or have glitches within them, they should not be punished or reported because it's not their fault that there are glitches within the game. 16. Instead of banning them, developers should be able to fix these glitches without getting banned. 17. People always say that Roblox is not a safe place for kids to go on but it's a safe place for kids to play and enjoy free games because all the games are fun and most of them don't have any inappropriate content. 18. I love Roblox so much! I will never ever stop using it...
