ROBLOX announced the launch of an app called ROBLOX Studio in July 2009, which allows players to make 3D videogames using ROBLOX Soft, or Lua scripting. These games can be shared on the website and with friends via social networking and email, making the virtual world even more alive than ever before. The app is free, but users must pay for revenue sharing of their games. On January 30, 2014 ROBLOX released its first app exclusively for iOS devices called "ROBLOX Studio" which puts a lot of its features into a more user-friendly format that previously had to be accessed through two separate products.

Rated 3 out of 5 by Anonymous from I like this game I think that this game is good and it's fun. Rated 4 out of 5 by Anonymous from So cool! My friend told me to download roblox and I did it but the only problem is that there are so many things to download 20gb but overall it is so cool I love it! Rated 5 out of 5 by Anonymous from Fun Fun Fun Great game for all ages. It shows you the basics on building your character and some scripting as well. Not to mention, the multi-player features that ROBLOX provides.

Trivia In 2014, ROBLOX created a game called "Tank Trouble" that was very similar to the popular game "Minecraft". This caused a lot of people to leave ROBLOX due to the lack of creativity and stealing other companies ideas. Later on, Minecraft and ROBLOX started exploring ways to work together which ended up in creating an official version of Minecraft on ROBLOX as well as adding multiple features from Minecraft into their site. The official version is called "Bloxburg" and the unofficial version is called "Roxburgh".

Some users have noticed that the Roblox logo is a direct parody of Microsoft's logo. The two logos are nearly identical in shape and color scheme. The only difference between the two logos is that Roblox's logo contains a "R" whereas Microsoft's does not. Another parody was made by RulaGames in 2015 called "Robux". This was a parody to show that everything on Roblox cost money.
