Always back up your world: Before installing a mod it is always a good idea to save your world before you do anything else. This way, if something does not work out and you need to uninstall the mod or require a clean save, you will not lose everything. This is very important and we cannot stress enough how important this step is for most players! Install it correctly: Installing mods is different for each of them because they all have different requirements and rules about what files they will change in Minecraft. For example, some mods will just replace certain files while others will replace a lot more. Make sure to read the mod's description and the developer's website and follow them accordingly. If you trust the mod's description or its developer in general then it is probably safe to install it. If you are unsure at all, it would be a good idea to examine each of your files before installing so that you can see if anything has been altered by this mod.",

You must be careful about what items go into your inventory because once it goes into your inventory, it cannot go back out unless you die and respawn at a new random spawn point. Another type of server is a Creative Server. This type of server focuses around the idea of you being able to build anything that your imagination can think of. You don't have to be creative in game; it's similar to Minecraft, but it allows you to be a lot more creative with the blocks and items in the game. There are many different types of servers where you can connect; if you feel like there isn't enough, another way you could connect is by using a private server. A private server is highly customizable and allows even more freedom than a public minecraft server because there are no other people connected to the world at the same time as you. You can make the server with your friends and do anything that you can do on a public minecraft server, but with more freedom",
