On November 2nd, 2018, ROBLOX announced that the company is looking into implementing state-of-the-art anti-cheat technology. This was made to reduce the chances of "boters" putting random objects in games that don't belong there or making designs that look like they can be through a video editor. The company also stated that if there are any issues with their anti-cheat software, they will let everyone know as soon as possible.[24]

According to a report by SuperData Research, Roblox had an estimated 5.7 million monthly active users in 2018. The report states that their statistics were based on the call records of around 1 million Android users who are under 13 years old. In their report, the company estimated that 6% of their users were under 12 years old. The reported monthly active users also included those who played Roblox on a daily basis. Their estimate was 14% and they based this on the number of days that players spend playing Roblox on any day. In addition, the report also stated that 32% of their players were in North America and 29% were in Europe.

Most games offer a buy page or at least some sort of store where you can buy Robux in exchange for real money. But there are numerous other ways to earn free robux that I will be showing how you can do them!

On May 8, 2015, Builder's Club was released for mobile devices. Users can build games on their mobile device and upload them to the catalog. Users can now play on their devices and make money by selling their games. This was the first time a platform has allowed mobile users to make money from their creations. Also in this year, ROBLOX announced that they were giving all accounts \$1 million of Robux for free (for a limited time).

On March 13th, 2019, ROBLOX announced that they were working on a new anti-fraud system called "Real Account Verification." This system verifies account information by sending a link from one of their partners to the user's email address. For this new security feature, ROBLOX will be using the services of Verified Identity Partners. The system is expected to be completed in late 2019. [30]
