On March 18, 2017, ROBLOX introduced Virtual Pre-Orders which allow users to purchase merchandise months before it is released for general purchases. These items include apparel and accessories for your avatar. On May 7, 2017 ROBLOX announced the launch of a new virtual item known as the Game Ticket which allows players to purchase one game a month for 6 months (at half price). Players must be signed in and have a valid payment method in order to access the store.

Roblox was created by a company called Ellation. According to Wikipedia, Ellation is a gaming production company based in San Francisco, California. They started out with games that were mainly for children but now have many different types of games in which you can play with your friends and family. Some of the games have mini-games where you can buy special items or earn coins in order to unlock new areas or items. The idea behind robux is that players can earn robux by playing and participating in the game universe. With this system, players do not need to spend money on anything; they just collect more robux as they play in the game. Robux is the virtual currency of Roblox and can be bought in packages or earned in-game.

Another generator worth mentioning is the Robux Investment App . This is also an app that sends you robux once you've uploaded a video to YouTube. However, it actually requires you to invest in the application to receive robux. When you invest \$5 USD or more, the Robux Investment App will send out 100+ free robux per month for life!

On April 6, 2015, the company launched a virtual reality project called "ROBLOX VR". It allows users to play in the same virtual world and see each other's avatars. On March 22, 2017 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.
