In conclusion, Roblox is not only a highly addictive game but an educational one as well. It is easy to see why so many kids love to play this game! ROBLOX offers a large variety of games for many different audiences. It also has an excellent system for users to generate custom content so anyone can have their dream game. All in all, this is a great game that everyone should try at least once.

I know I made this review long but please read every word because I put a lot of effort into making this review good and hopefully it can help someone. Thank you for reading and keep in mind that this is not my full opinion on Roblox it is just a suggestion to help improve the game for everyone who plays.

On May 29, 2015, ROBLOX decided to stop giving out high-quality builder's cards to anyone who has one of these cards, making it no longer possible for them to build long games on ROBLOX. This was the first time that high quality builders clubs were ever taken away from people who had them. On July 15, 2016, ROBLOX re-enabled the old low-quality builder's club and added another high quality builders card which can be used by anyone without making their game longer than 30 days. This update helped in the new Club Builder's Club Builder's Club Update which gave people who had builder's cards prior the ability to make their ROBLOX games longer.

On November 7, 2017, Roblox released their first real let's play channel, but it only lasted a couple of months before Roblox cancelled its plans for let's play channels. It stars RandomPlayer as he plays a wide variety of games on ROBLOX, including many popular games such as Angry Birds and Zombieland.

In January 2015, the official Roblox Studio 2 was released on Steam. It allowed for cross-platform development with Windows 10. However, any existing games made with the previous version (R-Engine) will not work with this new version since it uses a completely different engine.
