On September 5th 2018, ROBLOX targeted a large amount of its users by adding in-game ads on most games for free. Players would be given an ad in the bottom right corner of their screen with the option of clicking it to see more games. This is very similar to how Facebook and Google ads work, however, the Roblox ads cannot be clicked on and are only meant as a distraction. Users would need to leave the game before seeing the ad again or wait until they lose interest in playing any other game. The new system was rolled out in large parts making users question ROBLOX's integrity as a company.

It's important to note that ROBLOX has banned players for using the button in a false manner. If you receive a permanent ban from ROBLOX, your account will be deleted permanently. The only way to prove you are innocent of wrong-doing is to appeal the ban within 7 days of receiving it and bringing up evidence from the investigation of what actually occurred.

Rated 4 out of 5 by Anonymous from Great! They make you have a membership, but it's free. I like that you can build and edit your own characters. You can also play others' custom games. You can also make your own games if you want Rated 4 out of 5 by Anonymous from Great! It has many things to do and it is definitely worth trying out! Rated 1 out of 5 by Anonymous from Horrible The game is worthless because of all the scamming on the app and its updates. Rated 5 out of 5 by Anonymous from I love it This is a great game that would keep you occupied.

They say content is king, and this statement could not be more accurate for Roblox. Why? Because on Roblox, players are able to make their own games within the game itself! These games are called "games" or "sims," and they can be accessed from a GUI called "The Catalog." There are tons of free games that players have created and uploaded for others to play. In order to play these games, you have to purchase them using free robux. You can also make your own game and make it either free for others to play or charge for everyone else to play.

There is a rare item that can be found in some games called "the orb" which is a blue orb looking like thing. It comes from a sound that the game creator puts in the game and if you get it, it can be used as an attack to kill the enemy with or to do other stuff like make you invincible. The orb is very rare to get so it is not really good to use if you do not want to waste the item, but I think that this item should be more common, so we don't have to spend too many robux on it.
