Free Robux In Speech Bubble

Roblox has been criticized for allowing other companies to make games on their site such as "Mining Simulator", which is a game that contains copyrighted material from BeamNG.drive, and "Brain Simulator", which is a clear clone of Brain Cube (which was also created by the same person who created Brain Simulator), and copyrighted material from several other games such as Robloxian Highschool and Backyard Zombies.

The code that has been provided with the promotion will reveal how much free robux is going to be provided with it. Once the code has been used, all of the games that are being played will be completely free.

A serious game should be fun whether you spend money on it or not. The developer should not make a profit from people who don't care about winning but rather just want to play and have fun. If there is real value in the game then it can sustain itself through micro transactions that offer cosmetic enhancements only, by providing new texture patterns, color schemes, new props, etcetera.

Here is the link to MyRoblox. You can also find the very informative "Reddit Facts" page on the Roblox Help site as well, although it is no longer up-to-date. EDIT: This also applies to other games like Robokill, Minecraft and Terraria. Just remember where you find out important information. ;) Last edited by alyssa2789; 05-31-2019 at 05:44 AM .

I wrote all of this because I really love Roblox and I just want everyone to have fun in game without worrying about the problems that are being posted above. I think some of the problems can be fixed like muting the people who spam and the moderators should be able to keep a better eye on the areas they are in charge of.
