Let me tell you that this is probably the best free robux on roblox generator out there!

Roblox is the currency used on many games running in the ROBLOX Universe, such as RarestMonsters and BLOXelation. It was first introduced in 2017 for the game Shooting Challenge 2. In April 2018, ROBLOX introduced a feature referred to as "LocalScripts." LocalScripts enable users to locally execute C# code in-game. They can be used to access the hardware of a device running the game, or manipulate specific parts of the game. For example, by using LocalScripts, developers can create weapons that change their firing rate depending on how fast you pull the trigger.

Rated 4 out of 5 by Anonymous from Good for kids My son loves this game! It helps him study for his tests and play with his friends. His favorite part is that the creators have set everything up so that parents can control what their children see online.

Reddit - There are quite a few forums and subreddits for Roblox, but the one I personally recommend is /r/roblox. It got started years ago and continues to be one of the best places to go on Reddit when it comes to Roblox information. They have a subreddit attached to each game, so you can always find information right where you want it.
