Cons: 1. Getting a new account is a bit difficult when you don't have someone's phone number or e-mail address of that person who created an account on TikTok in order to sign in with it. 2. The app does not allow users under thirteen years of age or those above fifty years of age to use it as well which is not very good for many members who can easily create their own accounts and videos using this app without having any restrictions at all. 3. There are some filters and stickers which are not available as of yet on the app. 4. The time limit for viewing content in the stories section is only 48 hours which is very less compared to others social media platforms. You can't view it for more than two days on TikTok itself. This means that you will have to save videos you want to watch later manually if you want to view them later after two days as they will be deleted automatically from the app by then. 5. There is no option of applying more than one sticker or filter in a video at all until now which is not very good by any means if we compare it with other video sharing apps like Instagram or Snapchat etc where this option is available easily. 6.

There is no option of creating a group conversation on TikTok which will allow you to invite members from your contact list to join the conversation. You can only create a group with other users and everyone in the group has to add each other in order to be able to access the conversation. 7. You can't find many "good-looking" videos on this app which are based on some specific topics or topics that you search for like those you can easily find on Instagram and Snapchat etc. 8. Not all of its features are available for using without having any log in or sign up procedures at all especially if we compare it with Snapchat and Instagram where there are almost no restrictions at all regarding this matter. 9. The time limit for viewing videos in the app is also very high which makes it difficult for new users to enjoy some videos they want to view after a certain amount of time only has passed since they have watched it in the stories section of TikTok. 10. The advertising format on TikTok is very different from those of other social media platforms like Instagram and Snapchat etc where there are many more ads on them and you have to pay extra money in order to remove ads from them which can be a little irritating sometimes.",
