I personally could work on my vocabulary by playing Roblox because they have so many words that you will need to remember. In order to remember these words you can just go through your dictionary or the game and see how many words are similar. This is also good for children because they can learn a lot of vocabulary while playing games; this is similar to learning about a new language in school.

As of 2021, ROBLOX does not require end-users to use their own search engine to find games.[18] This is bad as some users search for objects such as skins and items instead of games. This can lead to confusion because they may get a game search that directs them to user's profiles instead.

I have been playing roblox games for about two years now. I started out with one of the mini-games (Hotel Tycoon 2). This game was very simple; all you had to do was buy a hotel and look after your guests. As time went on, my friends and I found a new game we wanted to play together (Battlefield 3). It was similar to Call of Duty with better graphics. We liked the game so much that we wanted to transfer our characters from Hotel Tycoon 2 into Battlefield 3. One night, my friend and I were playing on roblox and entered into a "lobby". In a lobby, you can find friends who are online playing games or creating new ones. We had two other friends join in and we started talking about which game we wanted to play together. The next day we all decided on Robloxian Life.

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.
