Roblox allows its playerbase to make money through in-game ads. All the buttons can be clicked for additional clicks. The game also uses an in-game currency called ROBUX (Robotix) and replaces it with R\$ (Robux). There are many ways to earn these ROBUX, but the most efficient way is through the sale of items on the game marketplace or through microtransactions. However, your account will be flagged if you decide to do so.

It's hard for players who are older or younger (because of the increasing costs) to get some points because it takes a lot of effort just for 1 point. Some fields require money that most players cannot pay for. You can easily see this in the game's world:

Some other ways that these generators get more traffic is through sending out promotional codes on social media sites like Twitter or Facebook while also using email marketing techniques.

Rated 5 out of 5 by Anonymous from So much fun I love this game so much! There is no fighting, just chatting with your friends online and there are no missions or quests to complete to play this game. It has no age limit either, so younger kids can join in.

The product was heavily criticized by users who claimed it was just a copy of YouTube.[87] On September 24th, 2018 ROBLOX announced that they would no longer make updates or interact with people's comments.[88] It is unknown if they will continue making content for the channel. However, ROBLOX did announce that they are continuing to work on improving their products.
