Robux is a great currency, but there are some concerns about it, so here are the concerns about Robux that have been said through forums and complaints. Robux are very difficult to obtain in free roam as bumping players often prevents them from getting any, but it can be easily obtained at gta 5 when you go to "buy weapon" then click on the option on top where you can buy bonuses like point boost, etc.

One example of a troll game, created in 2005, was "Uppercut". This involved players being knocked into the air when they attempted to create their character. However, when the player hits the ground, they were shown a message saying that the creator of this game had disabled their inventory and that they had been defeated.

On May 8, 2015, Builder's Club was released for mobile devices. Users can build games on their mobile device and upload them to the catalog. Users can now play on their devices and make money by selling their games. This was the first time a platform has allowed mobile users to make money from their creations. Also in this year, ROBLOX announced that they were giving all accounts \$1 million of Robux for free (for a limited time).

On May 31st, 2017, ROBLOX announced that they would be adding the ability to purchase ROBLOX Points via PayPal, which will allow for them to offer virtual currency for in-game items and ROBUX purchases.[17] The announcement was made on the official blog.

Roblox has been criticized for an update they released in February 2018 that added "tattoos" to their avatars. The update was scheduled to be released on November 1, 2017, but it was delayed and finally released on February 5, 2018. This caused some users to report that they had tattoos on their avatar even though they never wanted them.
