On February 16th, 2019, ROBLOX announced the launch of their new anti-fraud feature called "Verified Accounts." This feature verifies account data with third-party services like Google and Facebook. The company will enhance this feature in the future by allowing users to verify their accounts with other companies as well.[29]

On September 22nd, 2012, a head developer from the website Games Done Quick sent a cease and desist letter to Roblox because they were using code that he had created without permission. This is one of the few situations where ROBLOX has deleted all of its assets to avoid legal issues.

The territory restriction on new accounts for "TERA" was lifted in June 2012. At that time, players were also given a free transfer to a North American account. In February 2015, En Masse Entertainment announced plans to merge servers for "TERA" and also announced additional details about Season 2 of "TERA: Rising". The merger began on March 11 with servers down for two hours beginning at 5 am Pacific Time (8:00 UTC). This was followed by two more short downtimes on March 17 and March 26 before all character transfers were completed. The merger of servers resulted in the creation of a single player vs. player server and a single role-playing server. The role-playing server was created to stop the underpopulated game world from splitting into two more servers.[62]

In August 2016, Roblox announced that they would be offering their service in China.
