Community: Roblox has an active community of players. A group of these players have joined together to create a group called ROBLOX Users as Leaders, or RUL. This group has made several YouTube videos on what they expect the future of ROBLOX to be. For example, there was a video on RO-NT (Roblox On New Technology) which was released in 2013. The main purpose of this is to improve ROBLOX so that it can match the technological advances that have been made since 2012, including 3D technology and mobile platforms, such as Android and iOS.

On July 31st 2019, ROBLOX announced they would no longer be supporting this feature, and will be removing all games that are now using this physics system from the ROBLOX Catalog. This will affect nearly every game and millions of gameplay hours into future. The reason why they are discontinuing the feature is because most games with custom physics settings were [[Rage Quitters's favorite targets, and almost all of them are either unplayable or broken due to Roblox's buggy physics engine.

In this review, I will go through all the pros and cons of playing roblox, as well as what makes some games better than others in terms of what they offer to their users. Friends. roblox is relatively popular due to it's vast user base, which can be accomplished through the group chat feature that is built in to the game. This feature allows users to communicate with each other, create groups and share things such as games, locations and others. It also allows users to see what their friends are up to in the game. The cross-platform ability of being able to play on tablet or phone means that roblox works very well on mobile devices as well as older computers that do not have much processing power or graphics prowess - whether you're playing on Android, windows 10 or a Mac running OSX.

ROBLOX's first virtual item was the "Builders Club," which was launched in 2006 and was free to all users. It grants users certain privileges that allow them to create and publish places easily on ROBLOX. The Builders Club is currently \$9.99 a month; however, it used to be \$6.25 a month until 2014, when it was increased to its current price. The Builder's club has since been discontinued for Xbox One and PS4 users as of December 2018 due to converting the Builder's Club into a Builders Pass which costs \$9.99 a month instead of \$6.25 a month.

ROBLOX has banned thousands of accounts, usually for viral videos made by "trolls" or people who want to annoy other users/admins. Most of the bans these users receive are handed out by administrators but every once in a while a user will get banned for a "troll" video or similar reason. Some are also apparently banned because they made potentially offensive comments in the chatbox, not for any type of post or action that breaks the TOS.
