Minecraft Servers are great for those who want to play Minecraft with friends, as there is no limit on the number of players allowed and while there are limitations on the maximum number of villagers you can build, you can place practically anything. You will need a high-speed internet connection and a few more dedicated resources than your average computer user may have, so if you are running your server on a VPS or physical machine, it is recommended that you go with an account that offers reliable bandwidth with enough RAM and CPU to keep up with the demands of all players who are online at once.",

Minecraft Server Help and Support – When creating a server, it is important that the server runs smoothly and is able to handle as many players as possible at once. If your Minecraft Server Hosting Provider does not allow custom plugins on their servers, then your server may be susceptible to crashes due to inadequate support by the provider. The most popular servers that you can join are Bukkit Servers, Tekkit Servers or Feed the Beast Too Many Items servers. If you would like to host your own server, go here and learn how to make your own minecraft server.",

Rust is primarily played on Slither.io, an online multiplayer server based in Germany with the majority of servers based in North America. Rust has been praised as being "pure fun" and "a breath of fresh air", while criticism included the poor graphics compared to other survival games such as "Minecraft". Due to its ability to be played on servers without custom content, it is also much less popular than Minecraft due to better compatibility of graphics with other graphical engines. On January 7th 2021, Steam announced that "Rust" had officially passed 10 million sales, and by August 2021, the game had sold over 3.5 million copies alone on Steam. As of April 20th 2021, "Rust" has sold over 5 million copies across all platforms including Steam.",
