According to a report by "The Guardian", Roblox has been criticized for being a "digital playground" that involves more than 50% of their users under the age of 18. The report states that there are over 200 million players on Roblox who have access to weapons and themes that include sexual references and violence. They also said that Roblox emphasizes the idea of user privacy which can be seen in their games by having players invite other users via email or text messages.

Her parents did not approve of this decision and they started a petition on Change.org to get their daughter unbanned back on Roblox. They stated that her ban would be a violation of their privacy rights as well as an infringement upon her civil rights, as a minor. The family requested that Roblox reverse its ban of Arielle and instead give her a warning to stop future harassment, which she committed while playing "Minecraft". The petition received more than 50,000 signatures in less than 12 hours. However, it was then reported by users that the petition had been removed from the website soon after it began. As soon as the petition was received by Roblox, it was announced that her account would be reviewed and further action would be taken in response to how she had "been conducting herself online".

Mobile App: On September 5th, 2018, ROBLOX released their first official mobile app for iOS and Android devices. The app has various features such as the ability to customize avatars, the ability to chat with other Robloxians, even add people as friends. It also allows users to play games that they can't play on their website.
