As of April 2018, there are over 2,000 games on Roblox. Many of them are "clones" of other players' games made by other players, which can lead to copyright issues if the original creators do not want to share their work. Players may be able to report these games as well as block people who play them from their online profiles or in-game friends list. Some games have caused controversy with their focus on violence, sexuality and racism. However, Roblox staff have stated that the problem lies in the people who play these games, not in the games themselves.

ROBLOX has also been criticised for its lack of badge incentives for participating in games, or even logging into the site at all. ROBLOX models these badges and credit prizes after the badges found in games like Journey, where a lot of doing nothing gives you a lot of money, which is possibly a reason some players don't log in. ROBLOX also has very few quests to complete that reward badges/credits.

If you are a new player to Roblox then I would definitely recommend this game. This is because the game offers a lot of different features, and it even allows you to earn points from playing and completing different quests.

On May 26, 2018, a group of former Roblox moderators started a petition on change.org asking for Roblox to re-hire them after they were fired. The petition currently has over 8000 signatures and the former moderators were promised that they would be getting jobs back at Roblox if their petition reached 10,000 signatures.
