In late 2015, ROBLOX introduced ChatPads. These ChatPads function like keyboards for players with a webcam. The players can use a webcam to talk with each other as well as guests while playing the game. However, there are no audio chat functions. One feature of the new chatpads is that if you lock your screen when playing game, it will automatically unlock when you tab out from games to bring up your keyboard and chatpad features.

Roblox is an incredible game that gives people the opportunity to play in a virtual world that has so many different games, and it's also completely free. In roblox there are many different categories of games you can play, for example you can create your own game, and the possibilities are almost endless. The first thing I was really interested in when I started playing roblox was creating my own avatar which was really fun because you have a lot of options to choose from. You can pick from what hairstyle you want to wear or even what kind of clothes you want to wear. You can also pick how big or small you want your avatar to be, how they look in the mirror and of course what color the hair is. You can even choose if you want them to wear glasses or not.
