In 2010, ROBLOX updated their entire website to match the current version of their branding. The new design was made to be sharper and cleaner than the former one, and removed many visual effects that were seen as archaic and dated. A few key features of this change include a slightly larger "R", as well as a background shape for it similar to that of a "double-r", which ended up being used for every future iteration of the logo. This design is still used on the website today, albeit with variations in how it is utilized.

ROBLOX provides a feature that allows the user to build on their own server using ROBLOX Studio and upload it to their own server. This feature enables them to remove things that they don't like or people who break the rules and get banned from their creations. They can also control who enters their games. This also allows them to advertise their channels by making a game with a name similar to other popular games. However, this feature has many rules that the users must follow to keep their servers running smoothly. For example, they cannot advertise any kind of website or give out personal information about themselves.

Rated 5 out of 5 by Anonymous from I love roblox! This game is awesome! It has a lot of cool things to do, you can get characters, build houses in creative, play games in the arcade. There are a lot of things to do in this game. I think you should download it now!! :)

Robux (also known as Roblox) is the in-game currency of Minecraft:Roblox. It can be bought with real money, but in order to earn it, you have to do missions or purchase it with real money, which means that you are paying them for a fixed amount of time. Unfortunately for some players, they will be astounded by the fact that buying robux for roblox actually results in getting less than what you would get if you had done all these activities on your own. The amount of robux that you will get depends on how much stuff you buy and how many times you do a test.

ROBLOX has also been criticized on another level. Many people have said that they will never use ROBLOX again after the lack of response from the administration team. This is because even after reporting rule breakings, there is still no action taken against the players who do so. This has caused people to lose respect for the administration team.
