On November 29, 2018, ROBLOX announced that they are partnering with Spin Master which will have various toys and scripted interactivity come out in 2019. The app will be called Spin Master Stories.[51] On December 11, 2018, ROBLOX announced that it would be partnering with LEGO to put the LEGO minifigures in the game. The toys will be available as virtual items for purchase.[52]

At some point in mid-2015, they started using blockchain technology on their games as a way to verify ownership of an in-game item or character and prevent cheating. In December 2016, they launched a new internal system which allowed users to sell their games directly from the ROBLOX catalog instead of uploading them to the website's database.

- The idea of having a game where you can make your own avatar and decorate your own house, it's pretty cool but it makes the game even more repetitive.

There were a lot of concerns about Robux before the update that made it easier for players to get it, but some people still believe that Robux is manipulative and favors the developers. In the "review" section, people criticize the developers for doing what they wanted to do and not caring about what people think.

1. Play games and complete tasks for developers. 2. Play games with your friends and make in-game purchases (i.e buying hats or clothing etc). 3. Watch videos played by other players and make in-game purchases (i.e buying shirts or clothing etc). 4. Buy the games from the store or on a marketplace website like G2A or Openpay 5.
