Like I said, the free robux is a great thing to have in your account for almost everything that you need in the game. And it's also very hard to find free robux. There are other ways to get free robux, but they are very hard if not impossible to get most of them. Also, if you don't want people to actually see your ingame character with free robux, then this is the only way that I have found so far.

ROBLOX, from a mobile phone screenshot taken on 1 September 2013 Game Similarities and differences Grand Theft Auto Online This is another game similar with Roblox. It allows players to participate in various activities including robbing banks and carrying out heists, which is very similar to Roblox's Criminal series. [134] Cube World A game with many similarities with Roblox since it has blocky worlds that players can explore using their characters in which you can also build structures. [135] Elements This game is made to look a lot like Roblox. The main point of it is to destroy buildings to earn money and level up. [136] Bible Adventures This game looks just like Roblox, but with a few minor differences. [137]

On March 31, 2010, ROBLOX announced that they would be updating their policy on how they handle user information.[1] On May 5, 2010, a mass email was sent out from the company to its users informing them of changes made to their Privacy Policy and Terms of Use. The changes were made in the name of increased safety and security, and it was stated that the change was made in order to "protect [its] members."

I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? There are many games out there that aren't free like Minecraft, but at least they give you some sort of advantage. For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself. And it's not like Minecraft was designed with children in mind; it was created for adults.

In 2011 the Roblox company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (Charity Water). This was called Roblox Builders Club: Project Builder which raised over \$3,000 for charity water.
