ROBLOX has also come under criticism for not having any sort of Quality Assurance, meaning that there is a high chance that the art in users' games will have issues, such as visual glitches, poor texture quality, and various other issues with the art itself.

Hacking Roblox is a form of hacking. Hacking in general, when not applied maliciously, is the process of enabling access to computer systems that would otherwise be unavailable or difficult to access.

The product has received various negative comments on their forums due to the fact that they had broken features, it is unclear why they released the product before fixing all the bugs.

On November 24th 2018, the game was reuploaded on ROBLOX and was named simply "Anthem". It is the exact same game as before with no changes or improvements.[90] ROBLOX 3D: On December 23rd 2018, ROBLOX released a new version of their website called "Roblox 3D". The company claimed that it was meant to be an improved version of their 2014 release. The 3D design features many new animations and tools for users to create models. They also put a lot of time into making it look more modern.

Community: Roblox has an active community of players. A group of these players have joined together to create a group called ROBLOX Users as Leaders, or RUL. This group has made several YouTube videos on what they expect the future of ROBLOX to be. For example, there was a video on RO-NT (Roblox On New Technology) which was released in 2013. The main purpose of this is to improve ROBLOX so that it can match the technological advances that have been made since 2012, including 3D technology and mobile platforms, such as Android and iOS.
