In July 2012, ROBLOX released a list of their top 100 games with the most concurrent players at any one time. The list features a variety of games such as "Rage Place", "Create the Universe 2", and "Survival Games: Mine". The game with the highest number of concurrent players at the time was "Mineblox", which had over 10,000 players on it at once.

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.
